I, the undersigned, have agreed and hereby agree to assign to the Regents of the University of California (hereafter, "ROUC") in furtherance of my obligations to the ROUC, and do hereby assign and transfer to the ROUC, its successors and assigns, the entire right, title and interest, including to right of priority, in, to and under U.S. Patent Application number 09/282,048 (filed on March 29, 1999, for Chemically Synthesized And Assembled Electronic Devices), any patents issuing thereon, and the invention(s) and improvement(s) set forth therein, and any and all continuations, continuations in part (CIPs), divisionals, and renewals of and substitutes for said application and/or patent, and any and all Letters Patent of the United States and of countries foreign thereto which may be granted thereon or therefore; and any reissues, reexaminations or extensions of said Letters Patent and/or applications.

I additionally authorize the ROUC to file applications in my name for Letters Patent in any country to be held and enjoyed by the ROUC, its successors, assigns, nominees or legal representatives, to the full end of the term or terms for which said Letters Patent respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by me had any assignment and transfer not been made; I authorize the ROUC to secure all rights to said applications in the ROUC's name to the extent that such applications are currently pending or have already issued as Letters Patent.

I hereby covenant that I have the full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith, and I further covenant and agree that I will, each time a request is made, and without undue delay, execute and deliver all such papers as may be necessary or desirable to perfect the title to said invention(s) or improvement(s), said application and said Letters Patent, to the ROUC, its successors, assigns, nominees or legal representatives, and I agree to communicate to the ROUC, or to its nominee, all known facts respecting said invention(s) or improvement(s), said application and said Letters Patent, to testify in any legal proceedings, to sign all lawful papers, to execute all disclaimers and divisionals, continuations, CIPs, reissue and foreign applications, to make all rightful oaths and declarations, and generally to do everything possible to aid the ROUC, its successors, assigns, nominees and legal representatives to obtain and enforce, for its or their own benefit, proper patent protection for said invention(s) or improvement(s) in any and all countries provided the expenses which may be incurred by me in lending such cooperation and assistance are paid by THE ROUC.

I hereby authorize and request the Commissioner of Patents and Trademarks of the United States and any official of any country or countries foreign to the United States whose duty it is to issue patents on applications aforesaid, to issue to the ROUC, as assignee of the entire right, title and interest, any and all Letters Patent for said invention(s) or improvement(s), including any and all Letters Patent of the United States which may be issued and granted on or as result of the application aforesaid, in accordance with the terms of this assignment.
