ASSIGNMENT

This Assignment is made by Jeffrey S. Larson, Austin, Texas and Gary Cole of Driftwood, Texas ("Assignors").

WHEREAS, Assignors have invented a new and useful Invention entitled **System and Method of Discovering Information**, for which an application for United States Letters Patent was made, said application having been filed with the United States Patent and Trademark Office on December 6, 2001 and accorded Serial No. 10/006,763; and

WHEREAS, Assignors believes himself to be the original inventor of the invention including any and all improvements disclosed in said application ("Invention"); and

WHEREAS, the parties desire to have a recordable instrument assigning the entire right, title and interest in and to said Invention, said application and any patents, invention registrations or other forms of protection ("Patents") that may be granted for said inventions in the United States and throughout the world;

NOW, THEREFORE, in accordance with the obligations to assign the Invention and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sells, assigns, and transfers to **Waveset Technologies, Inc.**, having a principal place of business at 6850 Austin Center Blvd., Suite 205, Austin, Texas 78731 (hereinafter referred to as "Assignee"), the entire right, title, and interest in and to said invention, said application and any Patents that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignors agrees that, upon request and without further compensation, but at no expense to Assignors, he and/or his legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing the Patents in the United States and throughout the world for said Invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said Invention, said application, and any Patents granted for said Invention in the United States and throughout the world.

Assignors represents and warrants that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

-2-

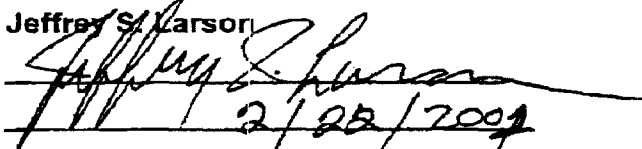

Assignors authorizes and requests the Assistant Commissioner for Patents of the United States and of all foreign countries to issue any Patents granted for said Invention, whether on said application or on any subsequently filed divisional, continuation, continuation-in-part, reissue or other application, to Assignee, its successors and assigns, as the assignee of the entire interest in said Invention.

IN WITNESS WHEREOF, Assignors has executed this Assignment on the date provided below.
