DEED OF SPLITTING

Italian Republic

Today the eleventh (11) of December in the year Two Thousand (2000), the following person presented himself before me, Dr. MICHELE ZERBINI, Notary and Member of the Bologna College of Notaries, resident in Bologna, in my office at 7, Galleria Cavour, Bologna, having expressly waived the presence of witnesses:

- VOLTA, Romano, Qualified Engineer, born in Bologna 15 February 1937, residing at 28, Viale Risorgimento, Bologna, businessman, acting for the purposes of this Deed solely in his capacity as President and legal representative of the Company "DATALOGIC SOCIETA' PER AZIONI", registered office 2, Via Candini, Lippo, Calderara di Reno (Bologna), capital ITL 31,270,000,000 fully paid, registered in the Bologna Court Register of Enterprises at No. 21854, tax registration number 80037630375, VAT registration number 00702421207, an Italian citizen as to whose personal identity I, the Notary, am satisfied, and declared in the first place as follows:

- that by notarial Deed before me, the Notary, dated 24 December 1997 (register No. 30067) enrolled at the 2nd Bologna Office of Receipts [Ufficio delle Entrate] on 30 December 1997 (entry No. 22322), the company then under the name of "DATALOGIC SOCIETA' PER AZIONI." made a partial splitting of itself as a company, under Civil Code 2504(vii) by forming the new company with the name "DATALOGIC S.p.A.", registered office 2, Via Candini, Lippo, Calderara di Reno, capital ITL 31,270,000,000 fully paid, now

EUR 18,423,600, registered in the Bologna Court Register of Enterprises (No. 96/1998), tax and VAT registration number 01835711209;

- that after the above mentioned splitting the splitted company has, moreover, changed name into "INDUSTRIE ELETTRONICHE SENSOR S.p.A." in short "I.E.S. S.p.A." and has moved the principal place of business in Monte San Pietro (Bologna), via Lavinio n. 265;

- that thereby, the same splitted company has transferred to the assignee company "DATALOGIC S.p.A." a branch of activity relative to the production of electronic apparatuses for reading bar codes, made of all active and passive patrimonial elements concerning the operative management, including, other than the goods described in the list attached to the splitting project, also the trademarks and the patents concerning the transferred branch;

- that it subsequently became necessary to make a systematic list identifying those trademarks and patents which had been transferred to the assignee company, for the purposes of registration and transfer of the same.

In view of the above which have been duly confirmed, Mr. Romano Volta appearing and acting as aforesaid, by way of a supplementary partial addition to the split registered by me on 24 December 1997 (Reg. No. 30067) as detailed above, now DECLARES that the company complex transferred by the splitted society formerly known as "DATALOGIC SOCIETA' PER AZIONI" now "INDUSTRIE ELETTRONICHE SENSOR S.p.A." to the assignee company "DATALOGIC S.p.A." also included the trademarks and patents identifiable as "active and passive patrimonial elements concerning the

operative management" and specifically identified in the lists attached to this present Deed under letters "A" and "B" thus forming an integral and substantive part thereof.

As representative of that company, Mr. Romano Volta, acting as aforesaid, now gives authority to the appropriate Public Registrars and any other Office, Body or Administration that might require it, with no exclusion or exception, to take all steps necessary to register and transfer the trademarks and patents to the assignee company, releasing them in the fullest way from all manner of liability for so doing.

The costs of and consequent on this Deed are borne by "INDUSTRIE ELETTRONICHE SENSOR S.p.A."

The reading of the attachments was omitted, by express dispensation on the part of Mr. Volta.

I, the Notary, have read this Deed to Mr. Volta, who approved it. It was written in part at a machine by a person who has my confidence and in part by my hand, on a paper four pages less nine lines.
