PATENT ASSIGNMENT

WHEREAS, James R. Albritton, having a residence in Aledo, Texas and **Exodyne Technologies, Inc.**, a Texas corporation, having a principal address in Fort Worth, Texas (hereinafter referred to as "Assignors"), have invented certain new and useful improvements for which application for United States Letters Patent is made as outlined below;

WHEREAS, TRN Business Trust, a Delaware Business Trust, having a principal address in Dallas, Texas (hereinafter referred to as "Assignee") desires to acquire any rights, title and interest in and to the invention, and in and to application and any Letters Patent that may issue thereon as outlined below;

NOW, THEREFORE, Assignors assign to **Assignee**, all right, title and interest in and to the inventions in exchange for good and valuable consideration as outlined in the **Assignment of Patent Rights and Related Technology to Trinity Industries, Inc. by James R. Albritton and Exodyne Technologies, Inc.**, effective December 31, 1999, and duly executed by all parties (hereinafter "Patent Rights Document").

Assignors also assign to **Assignee**, all right, title and interest in and to the inventions and in and to the applications and all patents as outlined in the **Patent Rights Document**, which may be granted therefor, and all provisionals, divisions, reissues, continuations, continuations-in-part and extensions thereof; and authorize and request the Commissioner of Patents and Trademarks to issue all patents for the inventions, or patents resulting therefrom, insofar as **Assignors'** interest is concerned, to **Assignee**.

Assignors further assign to **Assignee**, all right, title and interest in and to the invention as outlined in the **Patent Rights Document** throughout the world, including the right to file applications and obtain patents, utility models, industrial models and designs for the invention in its own name throughout the world, including all rights to publish cautionary notices reserving ownership of the invention and all rights to register the invention in appropriate registries; and further agree to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such right, title and interest in **Assignee**.

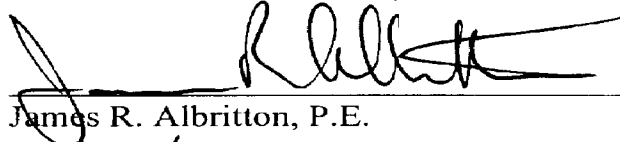

Assignors will communicate to **Assignee** any facts known to them respecting any improvements; and, at the expense of **Assignee**, **Assignors** will testify in any legal proceedings, sign all lawful papers, execute all provisionals, divisional, continuation, continuation-in-part, reissue and substitute applications, make lawful oaths and declarations, and generally do everything possible to vest title in **Assignee** and to aid **Assignee** to obtain and enforce proper protection for the invention as outlined in the **Patent Rights Document** in all countries.

In addition to those terms referred to hereinabove, the **Patent Rights Document** contains other terms, covenants and conditions which likewise affect the inventions and related patent applications, and notice is hereby given that reference should be made to the **Patent Rights Document** directly with respect to the details of such terms, covenants and conditions. Copies of the **Patent Rights Document** are maintained at the offices of

Assignors and Assignee. This Assignment does not alter, amend, modify or change the **Patent Rights Document** in any respect.

This Assignment is executed for the purpose of recording in the records of the United States Patent and Trademark Office and counterpart foreign patent offices, and it is the intent that this Assignment shall be so recorded and shall give notice of the **Patent Rights Document**.
