INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT ("Assignment") is made by and between **Integrated Vascular Systems, Inc.** ("Assignor"), and **Core Medical, Inc.** ("Company") and is effective as of the 27th day of Feb., 2002.

WHEREAS, Assignor has developed that certain technology set forth in Exhibit A herein ("Assignor Technology"), including without limitation designs, schematics and documentation in connection with the same;

WHEREAS, Assignor wishes to transfer all of its rights, including Assignor's intellectual property rights based on the Assignor Technology (the "Assignor IP") to Company, and Company wishes to obtain these rights;

NOW THEREFORE, the parties agree as follows:

1. Assignment. Assignor hereby irrevocably assigns and transfers to Company all of its right, title and interest, and Company hereby accepts such assignment, in and to the (i) Assignor Technology and (ii) the Assignor IP. The parties acknowledge that Assignor shall have no further rights to the Assignor Technology or Assignor IP, including without limitation any licenses to the Assignor Technology or Assignor IP, and that any further modification, improvement or invention by the Company based on or in connection with the Assignor Technology will be solely owned by Company.

2. Consideration. In return for the Assignor Technology, Company shall transfer and assign to Assignor 1,934,000 shares of Company Stock valued at \$0.05 per share. This consideration for the foregoing assignment is also set forth in the parties' Purchase Agreement, which has been executed concurrently with this Assignment.

3. No Warranty; Release. No warranty, express or implied, including, but not limited to validity or non-infringement of third party intellectual property concerning the Assignor IP is given. Assignor agrees that it will not assert any claim against Company or its successors or assigns alleging that Company or its successors or assigns infringe any Assignor IP existing as of the date of this Assignment.

4. Further Assurances. On and after the date of this Assignment, Assignor will, without charge and upon reasonable request by Company, (i) deliver to Company records, data or other documents relating to the Assignor IP that are in Assignor's possession, (ii) execute and deliver assignments, licenses, consents, documents or further instruments of transfer, including without limitation the short form assignment in Exhibit B, and (iii) take other actions, render other assistance and execute other documents. Assignor will also assist Company in filing and prosecuting United States and foreign patent applications claiming the Intellectual Property detailed in Exhibit A.

5. Confidentiality. Upon execution of this Agreement, all confidential information of

C:\NrPortb\IPALIB2\LA4\2102174_5.DOC

Assignor relating to Assignor IP will be owned by Company ("Confidential Information"). Assignor will protect the Confidential Information from disclosure with at least the same degree of care as that which he accords to his own proprietary information, but in no event with less than reasonable care. Assignor may not disclose the Confidential Information to third parties. Any breach of these restrictions will cause irreparable harm to Company and will entitle Company to injunctive relief in addition to all applicable legal remedies. Confidential information does not include (i) information that is in the public domain prior to the date hereof or becomes public hereafter through no fault of Assignor; (ii) information provided to Assignor by a third party who is not in violation of a duty of confidentiality with respect to that information; or (iii) information approved for release by Company.

6. Miscellaneous. This Assignment will inure to the benefit of and bind Company and Assignor and their successors, assigns, heirs and legal representatives. This Assignment will be governed by the laws of the State of California without giving effect to that jurisdiction's choice of law principles. The parties agree that (i) the courts of the State of California and United States federal courts sitting in the State of California will have exclusive jurisdiction over any disputes arising under this Assignment and (ii) they will submit to the jurisdiction of such courts. This Assignment is the complete, entire, final and exclusive statement of the terms and conditions of the agreement between the parties. This Assignment supersedes, and the terms of this Assignment govern, any prior or collateral agreements or letters of intent between the parties with respect to the subject matter hereof. This Assignment may not be modified except in a writing executed by duly authorized representatives of the parties. This Assignment may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instruments.

EXHIBIT B

ASSIGNMENT OF PATENT

WHEREAS, **Integrated Vascular Systems, Inc.**, a Delaware corporation having its principal offices at 743 Pastoria Avenue, Sunnyvale, CA 94086-2918 (hereinafter "Assignor") and **Core Medical, Inc.**, a Delaware corporation with principal offices at 743 Pastoria Avenue, Sunnyvale, CA 94086-2918 (hereinafter "Assignee") are parties to that certain **Purchase Agreement**, effective as of 2/27, 2002.

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor does hereby sell, assign and transfer and agrees to sell, assign and transfer unto Assignee or its designees, all of Assignor's right, title and interest in and to the Patents listed in Exhibit A to the Assignment of even date herewith and any reissues and continuations thereof and in all counterparts of the foregoing patents and patent applications filed or issued in foreign countries, as to which Assignor agrees to furnish and to execute on a country-by-country basis specific Assignments as requested by Assignee or any such designee.

Assignor covenants that it is the sole owner and assignee and holder of record title to the above-identified United States Patents and Patent Applications and any patents that issue thereon (and foreign counterparts thereto) and that it has full power to make the present assignment.

Assignor further sells, assigns, transfers and conveys unto Assignee the entire right, title and interest in and to any and all causes of action and rights or recovery for past infringement of the Patent herein assigned.

Assignor warrants unto the Assignee and further agrees that Assignor will, without demanding any further consideration therefor, at the request and at the expense of the Assignee, do all lawful and just acts including the execution and acknowledgment of instruments, that may be or become necessary for sustaining, obtaining continuations thereof, or reissuing said United States Patent and foreign counterparts and for maintaining and perfecting the Assignee's right to said Patent, particularly in cases of interference and litigation.

Assignor also hereby authorizes the Commissioner of Patents to issue any and all Patents that may be granted upon any of the patent applications herein referenced to Assignee, as the assignee to the entire interest therein.

IN WITNESS WHEREOF, this Assignment of Patent is executed at Santa Clara, California, this 27th day of Feb., 2002.
