ASSIGNMENT

WHEREAS, we, Bobo WANG, Taomo MU, Jon-Shin Hu, Tan-Feng Tsai, Chou-Jiung Lin, and Vincent Lee, the undersigned inventors and the ASSIGNORS herein, have invented METHODS AND APPARATUS FOR A NON-CONTACT DIRECT TRANSFER IMAGING SYSTEM, for which we have filed an application for Letters Patent of the United States, which application has been executed and of which inventions and improvements we are the sole owners; and

WHEREAS, AETAS TECHNOLOGY, INCORPORATED, a Delaware Corporation, located at 120 Theory Drive, Suite 200, Irvine, California 92612-3045 (hereinafter, together with any successors, legal representatives or assigns thereof, called ASSIGNEE), wants to acquire the entire right, title and interest in and to said improvements and application.

NOW, THEREFORE, for and in consideration of the sum of \$1.00 (One dollar) and other good and valuable consideration paid to each of us by the ASSIGNEE, the receipt and legal sufficiency of all of which is hereby acknowledged, We, the said ASSIGNORS, have sold and do hereby sell, assign, transfer and set over unto said ASSIGNEE, its successors and assigns, our entire right, title and interest in and to said inventions and all improvements thereon, in and to said applications for Letters Patent thereon, in and to applications pertaining to or based upon said inventions and applications, including divisional and continuing applications and continuations-in-part, and in and to any and all Letters Patent which may be granted and issued on said inventions and applications, or any of them, not only for, to and in the United States of America, its territories and possessions, but for, to and in all countries foreign thereto, together with and including all priority rights based upon any and all applications in the United States of America covered by this Assignment.

And for the above-named considerations, we do hereby agree that we will, at the request of said ASSIGNEE, execute any and all applications for Letters Patent for said inventions and any and all other papers and documents and do all other and further lawful acts that said ASSIGNEE may deem necessary or desirable to obtain Letters Patent on said inventions, to secure the grant of such Letters Patent, and to perfect and vest in the ASSIGNEE the entire right, title and interest in the inventions, applications and Letters Patent, and that we will provide promptly all pertinent facts and documents relating to said inventions and applications and will testify as to the same in any interference or litigation related thereto.

And for the above-named considerations, I do hereby authorize and empower the ASSIGNEE, its successors and assigns, to apply for and obtain, in its or their own names, Letters Patent for the said inventions before competent International Authorities and in any and all countries foreign to the United States in which applications for Letters Patent can be so made or Letters Patent so obtained.
