In consideration of one dollar (\$1.00) and other good and valuable consideration, including ongoing intellectual property advice and counsel with respect to mandated steps for patent prosecution, consultation about international patent prosecution and facilitation of the same, and advice about the licensing of the instant subject matter, the receipt and sufficiency whereof are hereby acknowledged, I Vincent A. Dimella of Solana Beach, CA do hereby assign to PATENT LAW FIRM, P.C. & PETER JON GLUCK, ESQUIRE (hereinafter referred to as "assignee"), a corporation of NY, having a principal place of business at 26892 Preciadros Drive, 2nd Floor in Mission Viejo California, its successors, legal representatives and assigns, a vested 10% interest in monies derived from my entire right, title and interest throughout the world in my invention or improvements in U.S.S.N. 09/760676, and/or the FLEX@GRIP MIMPI, exclusive of patent protection, and the application for Letters Patent of the United States therefor, executed by me on the date indicated above and any and all other United States applications and applications in any and all countries which I may file, either solely or jointly with others, on said invention or improvements, and in any and all Letters Patent of the United States or of any other country which may be obtained on any of said applications, and in any reissue, reexam or extension thereof.

AD

Said 10% shall be based upon any FLEX@GRIP MIMPI derived monies, irrespective of patent status, and shall be increased by an additional 1% upon allowance of a U.S. Letters Patent, and decreased to 7% of gross monies derived from the FLEX@GRIP MIMPI, OR RIGHTS SOLD BASED IN ANY WAY ON THE SAME, in the event that no patent issues from said filing.

JD

I hereby authorize and request the attorneys of record in said application to insert in this assignment ANY LEGALLY MANDATED OR REQUIRED INFORMATION TO REOCDR AND/OR OTHERWISE PERFECT THE SAME AT ANY PATENT OFFICE WORLD-WIDE.

I warrant myself to be the owner of the interest herein assigned and to have the right to make this assignment; and further warrant that there are no outstanding prior assignments, licenses, or other rights in the interest herein assigned.

For said consideration I hereby agree, upon the request and at AGREED UPON ARRANGEMENTS FOR COSTS with said assignee, its successors, legal representatives and assigns, to execute any and all divisional, continuation, and C-I-P applications for said invention or improvements, and any necessary oath or supplemental oath or affidavit relating thereto, and any application for the reissue, reexam or extension of any Letters Patent that may be granted upon said application that said assignee, its successors, legal representatives and assigns may deem necessary or expedient. For said consideration I further agree, upon the request of said assignee, its successors, legal representatives and assigns, in the event of said application or any division, continuation, or C-I-P thereof, or Letters Patent issued thereon, or any reexam, reissue or application for the reissue thereof becoming involved in interference, to cooperate to the best of my ability with said assignee, its successors, legal representatives and assigns in the matters of preparing and executing the preliminary statement and giving and producing evidence in support thereof. I further agree to perform, upon such request, any and all affirmative acts to obtain Letters Patent, and vest all rights, granted above, therein hereby conveyed in said assignee, its successors, legal representatives and assigns whereby said Letters Patent will be held and enjoyed by said assignee, its successors, legal representatives and assigns to the end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by me if this assignment and sale had not been made, and for said considerations I hereby also assign to said assignee, its successors, legal representatives and assigns the entire rights, title and interest in said invention or improvements for any and all foreign countries and the right of priority for patent and utility model applications in all countries arising under any applicable international convention for the protection of industrial property and/or any internal priority legislation of such countries, and I further agree upon the request of said assignee, its successors, legal representatives and assigns to execute any and all documents that shall be required to be executed in connection with any and all applications for foreign Letters Patent therefor, including the prosecution thereof, and to execute any and all documents necessary to invest title in said foreign applications and patents in said assignee. Sworn under pains and penalty of perjury this 6th day of June 2002.
