ASSIGNMENT

WHEREAS I, John Givargis, hereinafter referred to as the "Assignor", of 1630 Valparaiso, Turlock, California 95382, have invented a new and useful invention entitled "Filtering System and Method" for which I have executed application papers for United States Patent thereon, and

WHEREAS I verily believe myself to be the original, first and sole inventor of the invention set forth in said application for Letters Patent and represent that I have not conveyed or hypothecated any right or interest therein, and

WHEREAS G.E.N. Industries Corp., a corporation of the State of Nevada, hereinafter referred to the "Assignee", having a principal place of business at 1031 South Broadway, Suite 401, Los Angeles, California 90015, is desirous of acquiring the entire and exclusive right, title and interest in and to said invention, any and all patent applications which may be filed thereon, and all Letters Patent which may be granted or issued therefor in the United States and throughout the world, including any and all divisions, continuations, reissues and extensions of any of the foregoing;

NOW, THEREFORE, for good and valuable consideration and for the further consideration of the sum of One Dollar (\$1.00) plus, receipt of which is hereby acknowledged, Assignor does hereby sell, assign, transfer and set over unto the said Assignee, its successors and assigns, the entire and exclusive right, title and interest in and to said invention, patent applications and Letters Patent which may be granted or issued for said invention in the United States and throughout the world, including all divisions, continuations, reissues and extensions thereof, and all international priority rights associated therewith, all to be held and enjoyed as fully and completely as the same might have been held by Assignor had this assignment not been made, and Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States and the duly constituted authorities of foreign countries to issue all Letters Patent relating to the foregoing assigned rights to said Assignee, its successors and assigns.

Assignor agrees that he will at all times keep the said Assignee advised of his whereabouts, and will promptly, upon request, and without further compensation, but at no out-of-pocket cost or expense to himself, do all lawful acts including the execution of all necessary documents, and the giving of testimony that in the opinion of said Assignee, its successors and assigns may be necessary or desirable for obtaining, sustaining and reissuing United States and foreign Letters Patent relating to the foregoing assigned rights, and perfecting, affirming, recording and maintaining the title of said Assignee, its successors and assigns thereto, and that Assignor will generally cooperate to the fullest extent in all matters pertaining to said inventions and patents, and said Assignee's title thereto.

IN WITNESS WHEREOF, I have executed this instrument at Turlock, California, this 6th day of July, 2002.

John Givargis
