ASSIGNMENT

WHEREAS, we, Wendy Henderson, Michael Campos, Walter Doubleday, Joseph Iglesias, and Tracy Grim, ("ASSIGNORS"), having post office addresses of 616 Livingston Avenue, Ventura, California, 93003, 631 Corte Rosalinda, Camarillo, California, 93010, 407 North Loxahatchee Drive, Jupiter, Florida, 33458, 1664 Fox Springs Circle, Thousand Oaks, California, 93012, and 9819 S. Richmond Avenue, Tulsa, Oklahoma, 74137, respectively, are the joint inventors of an invention entitled "HARDENABLE ORTHOPAEDIC SUPPORTS," as described and claimed in the specification for which an application for United States letters patent was filed on April 29, 2002, and assigned Application No. 10/136,023. This application is a continuation-in-part of U.S. Patent Application No. 09/823,968, filed March 29, 2001, to which this application claims priority;

WHEREAS, Royce Medical Company ("ASSIGNEE"), a corporation of the State of California, having a place of business at 742 Pancho Road, Camarillo, California, 93012, is desirous of acquiring the entire right, title, and interest in and to the invention and in and to any patents that may be granted therefore in the United States and in any and all foreign countries;

NOW, THEREFORE, in exchange for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, ASSIGNORS hereby sell, assign, and transfer unto ASSIGNEE, its legal representatives, successors, and assigns, the entire right, title and interest in and to the invention as set forth in the above-mentioned application, including any continuations, continuations-in-part, divisions, reissues, re-examinations, or extensions thereof, any other inventions described in the application, and any and all patents of the United States of America and all foreign countries that may be issued for the invention, including the right to file foreign applications directly in the name of ASSIGNEE and to claim priority rights deriving from the United States application to which foreign applications are entitled by virtue of

international convention, treaty or otherwise, the invention, application and all patents on the invention to be held and enjoyed by ASSIGNEE and its successors and assigns for their use and benefit and of their successors and assigns as fully and entirely as the same would have been held and enjoyed by ASSIGNORS had this assignment, transfer, and sale not been made.

UPON THE ABOVE-STATED CONSIDERATIONS, ASSIGNORS agree to not execute any writing or do any act whatsoever conflicting with this assignment, and at any time upon request, without further or additional consideration but at the expense of ASSIGNEE, execute all instruments and documents and do such additional acts as ASSIGNEE may deem necessary or desirable to perfect ASSIGNEE's enjoyment of this grant, and render all necessary assistance required for the making and prosecution of applications for United States and foreign patents on the invention, for litigation regarding the patents, or for the purpose of protecting title to the invention or patents therefor.

ASSIGNORS authorize and request the Commissioner of Patents and Trademarks to issue any Patent of the United States that may be issued for the invention to ASSIGNEE.
