ASSIGNMENT

File No. 13003US03

Application Ser. No. 10/137506

Inventor: Joachim R. Schaefer
Martin Schroer

Filing Date: April 30, 2002

In consideration of One Dollar (\$1.00) and other good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, each of the undersigned hereby assign jointly to **Ballard Power Systems Inc., a corporation under the Canadian Business Corporations Act**, their successors and assigns, the entire right, title and interest in and to the invention or improvements of the undersigned disclosed in an application for Letters Patent of the United States, entitled: **DOUBLE BELT BONDING PROCESS AND APPARATUS**; and identified as File No. 13003US03 in the offices of **McANDREWS, HELD & MALLOY, LTD.**, and in said application and any and all other applications, both United States and foreign, which the undersigned may file, either solely or jointly with others, on said invention or improvements, and in any and all Letters Patent of the United States and foreign countries, which may be obtained on any of said applications, and in any reissue or extension of such patents, and further assign to said assignees the priority right provided by the International Convention.

Each of the undersigned hereby authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent to said assignees.

Each of the undersigned hereby authorize and request the attorneys of record in said application to insert in this assignment the filing date and serial number of said application when officially known.

Each of the undersigned warrants himself to be the owner of the entire right, title and interest in said invention or improvements and to have the right to make this assignment, and further warrants that there are no outstanding prior assignments, licenses, or other encumbrances on the interest herein assigned.

For said considerations each of the undersigned hereby agree, upon the request and at the expense of said assignees, their successors and assigns, to execute any and all divisional, continuation and substitute applications for said invention or
