ASSIGNMENT

This Assignment is made by **TODD ALAN WALLEN**, a citizen of the United States of America, residing at 29921 61st Avenue S., King County, Washington 98001; **WILLIAM ERIC WARD**, a citizen of the United States of America, residing at 16436 241st Avenue S.E., Issaquah, Washington 98027; and **GERALD P. LACHAPPELLE**, a citizen of the United States of America, residing at 8914 69th Avenue N.W., Gig Harbor, WA 98332 ("Assignors").

WHEREAS, Assignors have invented a new and useful invention entitled **A SYSTEM AND METHOD FOR CAPTURING, MANAGING, AND DISSEMINATING MANUFACTURING KNOWLEDGE** for which an application for United States Utility Patent was made on May 15, 2002, bearing a serial number of 10/063,802; and

WHEREAS, Assignors believe themselves to be the original inventors of the invention disclosed and claimed in said application for Utility Patent; and

WHEREAS, the parties desire to have a recordable instrument assigning the entire right, title and interest in and to said invention, said application and any Utility Patent that may be granted for said inventions in the United States and throughout the world;

NOW, THEREFORE, in accordance with the obligations to assign the invention and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to **VYKOR, INC.**, a corporation having a principal place of business at 200 Mill Avenue S, #100, Renton, WA 98055 (hereinafter referred to as "Assignee"), the entire right, title, and interest in and to said invention, said application and any Utility Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignors agree that, upon request and without further compensation, but at no expense to Assignors, he/she and/or their legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or

desirable for obtaining, sustaining, reissuing, or enforcing Utility Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said application, and any Utility Patent granted for said invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Assistant Commissioner for Patents of the United States and of all foreign countries to issue any Utility Patent granted for said invention, whether on said application or on any subsequently filed divisional, continuation, continuation-in-part, reissue or any application claiming benefit of said application in whole or in part, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the dates provided below.
