**ASSIGNMENT**  
(Joint)

WHEREAS, new and useful improvements and inventions have been made by the undersigned in

**ASYMMETRIC RING DOME RADIO FREQUENCY COIL**

for which an application for Letters Patent of the United States was filed on March 8, 2002, which application is identified by Serial No. 10/094,378 (Pearne & Gordon LLP Docket No. 33392US1).

WHEREAS, USA Instruments, Inc., a corporation of the State of Ohio, having a principal place of business at 1515 Danner Drive, Aurora, Ohio 44202, hereinafter referred to as "assignee", is desirous of acquiring all right, title, and interest throughout the world in, to, and under said improvements and inventions and patent rights therefor.

NOW, THEREFORE, be it known that, for valuable consideration, the receipt and sufficiency of which are hereby acknowledged, all right, title, and interest, in the United States and throughout the world, in, to and under said improvements and inventions and all patents, patent applications, patent rights, and inventor's certificates thereof, therefor, and therein, including without limitation said application for patent in the United States, all divisions and continuations thereof, all patents which may be granted thereon, all reissues and extensions thereof, all right to sue for past infringement thereunder, all patents which may be granted for said improvements and inventions by states or nations other than the United States, or by other authority, entity, or organization, and all applications therefor, have been and are hereby sold, assigned, transferred, and delivered unto assignee, its successors and assigns; and it is covenanted and agreed by the undersigned, and for executors, administrators, and legal representatives of the undersigned, that at assignee's request any and all applications, affidavits, assignments, and other instruments will be made, executed, and delivered as may be necessary, or desirable to secure for or vest in assignee, its successors or assigns, any improvement, inventions, right, title, interest, application, patent, patent right or other right or property covered by this assignment, and the United States Commissioner of Patents and Trademarks is hereby requested and authorized to issue any and all United States patents granted on any of said applications to assignee as owner of the entire right, title, and interest in, to, and under the same, and appropriately empowered officials of foreign countries are hereby authorized to issue

any letters patent granted on any of said applications to assignee as owner of the entire right, title, and interest in, to, and under the same.
