ASSIGNMENT

THIS ASSIGNMENT is by Sharat Singh, and Robert Allan Zivin (the "Assignors"), residing at 3420 Royal Meadow Lane, San Jose, California 95135 and 9 Pebble Beach Court, Skillman, New Jersey 08558, respectively. We Assignors have invented certain inventions described in a United States Patent Application entitled ANALYZING PHOSPHORYLATED PROTEINS (the "Application") filed on May 21, 2002 as Application No. 10/153,312 (the "Inventions"). We Assignors authorize the Assignee, identified below, or its representatives to insert the filing date and application number of the Application when known.

ACLARA BioSciences, Inc., a corporation of the State of California having a place of business at 1288 Pear Avenue, Mountain View, CA 94043 ("Assignee"), desires to acquire the entire right, title and interest in and to the Inventions and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Inventions in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which we acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Inventions, the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignors warrant that they are joint owners of the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may

be issued on the Inventions to Assignee. This Assignment may be executed in counterparts.
