Whereas GRC desires to assign to Assignee GRC's entire right, title and interest in and to the patents and patent applications set forth on Exhibit A hereto (the "Patents");

Whereas Assignors desire to assign to Assignee all of their respective right, title and interest in and to the know how, confidential information, technology, specifications, plans, and information which are unique to the Patents and necessary to practice the inventions of the Patents (the "Know How");

Whereas GRC is party to that certain Royalty Agreement by and between GRC and Evert C. Lawton ("Lawton") dated as of July 23, 2002, a copy of which is attached as Exhibit B hereto, pursuant to Section 3 of which GRC (including its assigns or designees) is obligated to pay Lawton a royalty with respect to the use of the Foreign '892 Patent Rights (as defined) in consideration of Lawton's assignment of his rights to the Foreign '892 Patent Rights, and furthermore to provide royalty reports to Lawton with respect to revenues received under the Foreign '892 Patent Rights, and to permit Lawton to inspect certain records concerning the calculation of his royalty payment (collectively, the "Foreign Royalty Obligation");

Whereas Assignee desires to accept an assignment of the Patents, the Know How and the Foreign Royalty Obligation.

NOW THEREFORE, in consideration of one dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which is acknowledged, Assignors and Assignee agree as follows:

GRC hereby assigns to Assignee all right, title and interest in and to the Patents, including any divisions, continuations or reissues thereof, and including the right to seek and collect damages for past and future infringements, theft or misappropriation of the Patents and to seek and obtain injunctive relief with respect to enforcement of rights in the Patents. Assignors hereby assign to Assignee all right, title and interest in and to the Know How to Assignee. For the avoidance of doubt, any and all know how, confidential information, technology, specifications, plans, information and the like of Assignors, to the extent they relate in any way to, or are otherwise helpful to practice under, any patents, patent applications or patent rights of Assignors not assigned hereunder, are retained by Assignors and not conveyed hereunder.

GRC hereby assigns to Assignee the Foreign Royalty Obligation, and Assignee hereby expressly assumes the Foreign Royalty Obligation, and agrees to indemnify and hold harmless GRC from and against any and all costs incurred as a result of any failure of Assignee to perform fully and satisfy the Foreign Royalty Obligation.

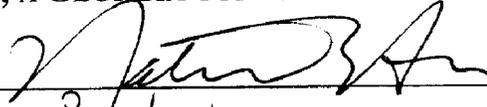

Assignee hereby acknowledges and agrees that the rights granted to Assignee hereunder are provided and are hereby made subject to the rights of first refusal and other rights of Atlantech Holding Corp., a Delaware corporation ("Atlantech"), in and to the Patents and the Know How and any modifications or improvements thereto as set forth in the Right of First Offer and First Refusal Agreement between, among others, Assignee and Atlantech dated as of July 31, 2002.
