Docket No. 7000V.1

Serial or Patent No. : _____

Filed or Issued: Contemporaneously

For: RF Plasma Method for Production of Single Walled Carbon Nanotubes

ASSIGNMENT

WHEREAS, I/we, the undersigned, Raouf O. Loutfy, Alexander P. Moravsky, Timothy P. Lowe own certain rights to the invention filed contemporaneously and entitled "RF Plasma Method for Production of Single Walled Carbon Nanotubes."

WHEREAS, Materials and Electrochemical Research (MER) Corporation. (hereinafter "Company" or "Assignee"), an Arizona Corporation, having a principal place of business at 7960 South Kolb Road Tucson, Arizona 85706, is desirous of acquiring certain rights thereunder;

NOW, THEREFORE, for one dollar and other good and valuable considerations, the receipt of all of which is hereby acknowledged, the undersigned:

Hereby sells, assigns, and transfers unto said Company his entire right, title and interest in and throughout the United States of America (including its possessions and dependencies), and all countries foreign thereto, in and to said invention, said application and any and all patents (including reissues and extensions thereof), of any country, which have been or may be granted on said invention or any part thereof, or on said application or any divisional, substitute, continuation-in-whole or in-part, renewal, reissue or other patent application based thereon, or based upon said invention, together with the right in said Company to apply for any such patent in its own name in all countries of the world where such is permissible by law, and the right to claim the benefit of the priority right provided by the International Convention of 1883, as amended to date, and any other such priority right; TO BE HELD AND ENJOYED by said Company, its successors and assigns, to the full ends of the respective terms for which said patents or any of them have or may be granted as fully and entirely as the same would have been held and enjoyed by the undersigned had no sale and assignment of said interest been made;

Authorizes and requests the Commissioner of Patents of the United States of America to issue any and all United States Patents which may be granted upon said United States Applications or any of them, or upon said invention or any part thereof, to said Company;

Agrees, for the undersigned and for the heirs and legal representatives of the undersigned, to execute without further consideration any further lawful documents and any further assurances, and any divisional, continuation-in-whole or in-part, substitute, renewal, reissue, or other applications for patents of any country that might be deemed

necessary by said assignee fully to secure to said assignee its interest as aforesaid in and to said invention or any part thereof, and in and to said several patents or any of them;

Covenants, for the undersigned and for the legal representatives of the undersigned, and agrees with said Company its successors and assigns, that no right of license to make, use or sell said invention has been or will be granted by the undersigned to anyone.

IN WITNESS WHEREOF, I have unto set my hand and seal on the date indicated by my signature.
