**ASSIGNMENT OF ENTIRE INTEREST IN
LETTERS PATENT OR APPLICATIONS FOR PATENT**

This **AGREEMENT** is made by and between Phillip Robert Saville, an individual residing in Illinois ("Assignor"), and Accelerized Golf, LLC, Inc., a Georgia limited liability company ("Assignee").

WHEREAS, Assignor is an owner of a right, title, and interest in and to U.S. Patent No. 6,261,189 entitled "Human Movement and Golf Swing Monitoring and Training System" (the "Patent"); and

WHEREAS, Assignee is desirous of acquiring the Patent from Assignor and Assignor is desirous of assigning the Patent to Assignee; and

NOW, THEREFORE, for and in consideration of Five Hundred Dollars (\$500.00) and other good and valuable consideration, the receipt, adequacy, and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. **Sale and Assignment.** Assignor hereby sells, grants, conveys, and assigns to Assignee all Assignor's right, title, and interest in and to said Patent, any reissues, renewals, amendments, extensions, or continuations thereof, and to all foreign patents or foreign applications for patent corresponding to said Patent, for the full term thereof, including all treaty and convention rights, and the right to sue for present, past, and future infringement, enforce any rights and file any causes of action related thereto, and to all income, royalties, fees, damages, and payments now or hereafter due or payable in respect thereto; the same to be held and enjoyed by Assignee, its successors and assigns, to the full end of the term or terms for which the said Patent is or may or shall be granted, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment and sale not been made.

2. **Covenants, Warranties, and Representations.** Assignor hereby covenants, warrants, and represents, for itself, its successors and assigns, with Assignee, as follows:

(a) **Validity and Authority.** That said Patent is valid and subsisting. That Assignor is an owner of said Patent, and that no right, interest, license, or privilege has been granted by Assignor to any other entity inconsistent with the rights, title, and interest granted to Assignee herein. That Assignor has good and marketable title to said Patent. That there are no liens, encumbrances, security interests, charges, or contracts of any nature or kind relating to or affecting said Patent or the transfer or assignment of same that Assignor has not disclosed to Assignee. That Assignor has full authority to execute this Agreement.

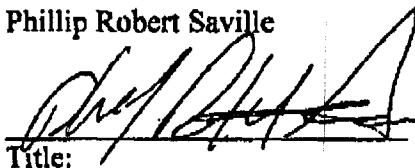

(b) **Further Assurances.** Assignor will execute any further necessary assurance of title to said Patent; and at any time, upon the request and expense of Assignee, will execute and deliver any and all papers that may be necessary or desirable to perfect the title to said Patent which may be granted therefore in Assignee, its successors and assigns, and upon the request and at the expense of Assignee, will execute any divisional, continuing, reissue, foreign counterparts or other applications for patents for the invention of said Patent, or any part or parts
