ASSIGNMENT OF PATENTS

This ASSIGNMENT OF PATENTS (this "Assignment of Patents"), dated as of March 7, is entered into by and among (i) MUSIC Semiconductors, Inc., a Chapter 11 debtor in reassignment, together with all of its predecessors in interest (collectively referred to as "Music"), Music Corporation, a Philippine corporation, together with all of its predecessors in interest collectively referred to as "MC"), (iii) Music Semiconductors Philippines, Inc., a Philippine corporation and a subsidiary of MC, together with all of its predecessors in interest (collectively referred to as "MSPI"), (iv) Museum Electronics NV, a Netherlands corporation, together with all predecessors in interest (collectively referred to as "Museum"), (v) Innovative Technology, a California limited liability company, together with all of its predecessors in interest collectively referred to as "Innovative"), and (vi) Micron Technology, Inc., a Delaware corporation ("Purchaser"). Music, together with MC, MSPI, Museum and Innovative shall be referred to collectively as the "Sellers".

This Assignment of Patents is entered into pursuant to the Asset Purchase Agreement, as of March 7, 2002, by and among Purchaser and the Sellers (the "Asset Purchase Agreement"). Any capitalized term used herein but not otherwise defined herein shall have the meaning ascribed to such term in the Asset Purchase Agreement.

Pursuant to the Asset Purchase Agreement, each Seller agreed, among other things, to transfer to Purchaser all of the Sellers' right, title and interest in and to the Ternary Business, which includes any and all patents, patent applications and provisional applications (including all counterparts, divisions, continuations, continuation-in-parts, reexaminations or reissues thereof), as well as inventions not yet applied for, owned by each of the Sellers throughout the world and associated with, or related to, the Ternary Business, together with any and all rights of each Seller associated with all such inventions not yet applied for or inventions described or claimed in said applications and patents, whether or not such patents are issued by or such applications are pending with the USPTO or other comparable governmental authority of any foreign jurisdiction (including, without limitation, those patents, applications, and inventions set forth on Exhibit A hereto (the "Assigned Patents")), in exchange for the payment by Purchaser of the Purchase Price pursuant to the terms and subject to the conditions provided in the Asset Purchase Agreement.

1. Assignment of Patents by the Sellers. Each of the Sellers hereby irrevocably and exclusively grants, bargains, sells, transfers, conveys, assigns and delivers to Purchaser all right, title and interest in and to the Assigned Patents, free and clear of all encumbrances, together with all causes of action and other rights to sue for and remedies against past, present and future infringements of any of the foregoing, together with the right to collect damages therefore, and all rights of priority provided thereby, and all rights to seek protection of interests therein under the laws of any jurisdiction worldwide and all tangible embodiments thereof, to have and to hold the same unto Purchaser, its successors and assigns, for and during the existence of such rights and all renewals thereof.

2. Further Assurances. Each Seller hereby covenants and agrees that from time to time and at the expense of the Sellers, and without further consideration, upon request of Purchaser, each Seller shall and shall cause each of its affiliates to execute and deliver such instruments and documents, and take such further actions, as Purchaser reasonably may request in order to sell, convey, transfer and assign to Purchaser, or to record Purchaser's interest in or to, any of the Assigned Patents.

3. Power of Attorney. Each Seller hereby constitutes and appoints Purchaser as its agent and lawful attorney in fact, with full power of substitution in each Seller's name and stead, to take any and all steps, including proceedings at law, in equity or otherwise, to execute, defend, prosecute, settle, compromise, acknowledge and deliver any and all instruments and assurances necessary or expedient in order to obtain, maintain, protect, enforce, perfect the aforesaid rights and causes of action more effectively in Purchaser or to defend the same or to enforce any claim or right of any kind with respect thereto. Each Seller hereby declares that the foregoing power is coupled with an interest and as such is irrevocable.

4. Successors and Assigns. This Assignment of Patents shall be enforceable against the successors and assigns of the Sellers and shall inure to the benefit of the successors and assigns of Purchaser.

5. Governing Law. This Assignment of Patents shall be governed by and construed in accordance with the laws of the United States, in respect to patent issues and in all other respects, including as to validity, interpretation and effect, by the internal laws of the State of California, without giving effect to the conflict of laws rules thereof.

IN WITNESS WHEREOF, REOF, Music, MC, MSPI, Musem, Inc. have caused this Assignment of Patents to be signed by their respective officers thereunto duly authorized, all as of the date first written above.
