WHEREAS, Assignee wishes to acquire and Assignor wishes to assign its entire right, title and interest in and to the United States patents and patent application identified and set forth on Schedule A, (referred to herein as the "Patents");

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, transfer and set over to Assignee, its entire right, title and interest in and to the Patents including any continuations, divisions, reissues and extensions thereof, and including the inventions described and claimed therein, for Assignee's own use and enjoyment and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made, together with all income, royalties, damages or payments due or payable as of Effective Date or thereafter,

Insilco Corporation

including, without limitation, all claims for damages by reason of past, present, or future infringement or other unauthorized use of the Patents, with the right to sue for, and collect the same for Assignee's own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

IN WITNESS WHEREOF, the Assignor has caused this Assignment to be signed and executed by the undersigned officer thereunto duly authorized this 25th day of August 2000.
