 corporation in the prosecution of said application and in any interference which may arise involving said
 invention, and upon request, to execute without further consideration all necessary and desirable divisional,
 continuing, renewal, reissue, or other applications for patents in any country, that might be deemed necessary by
 said assignee fully to secure to said assignee its interest as aforesaid in and to said invention or any part thereof,
 and in and to said several patents or any of them.

AND I do hereby authorize and request the Commissioner of Patents and Trademarks of the United
 States of America to issue any and all United States patents which may be granted upon said United States
