ASSIGNMENT OF PATENTS

THIS ASSIGNMENT OF PATENTS made as of this 11th day of December, 2002, by OneLink, Inc., a Minnesota corporation with its principal place of business at 10340 Viking Drive, Eden Prairie, MN 55344 ("Assignor"), to CallVision, Inc., a Washington corporation with its principal place of business at 1080 West Ewing Place, Suite 200, Seattle WA 98119 ("Assignee").

Recital

Assignee and Assignor are parties to an Asset Purchase Agreement dated as of June 28, 2002 (the "Agreement"), pursuant to which Assignor has agreed to sell to Assignee and Assignee has agreed to buy from Assignor the Assets (as defined in the Agreement), including without limitation all right, title and interest in, to and under certain patents of Assignor. Pursuant to the Agreement, Assignor has agreed to execute such instruments as the Assignee may reasonably request in order more effectively to assign, transfer, grant, convey, assure and confirm to Assignee and its successors and assigns, or to aid and assist in the collection of or reducing to possession by the Assignee of, all of such assets.

In accordance therewith, Assignor desires to transfer and assign to Assignee, and Assignee desires to accept the transfer and assignment of, all of Assignor's worldwide right, title and interest in, to and under Assignor's registered and unregistered domestic and foreign patents and patent applications pertaining to the Products (as defined in the Agreement), including without limitation Patent Application No. Sn 09/842 578, filed on April 25, 2001 (CIP of 441 822) (all of the foregoing being referred to herein as the "Patents").

NOW, THEREFORE, Assignor, for and in exchange for the payment of the purchase price set forth in the Agreement, the receipt of which is hereby acknowledged, does hereby exclusively transfer and assign to Assignee, and Assignee hereby accepts the transfer and assignment of, all of Assignor's worldwide right, title and interest in, to and under the Patents, together with the goodwill of the business associated therewith and which is symbolized thereby, all rights to sue for infringement of any Patent, whether arising prior to or subsequent to the date of this Assignment of Patents, and any and all renewals and extensions thereof that may hereafter be secured under the laws now or hereafter in effect in the United States, Canada and in any other jurisdiction, the same to be held and enjoyed by the said Assignee, its successors and assigns from and after the date hereof as fully and entirely as the same would have been held and enjoyed by the said Assignor had this Assignment of Patents not been made.

Except to the extent that federal law preempts state law with respect to the matters covered hereby, this Assignment of Patents shall be governed by and construed in accordance with the laws of the State of Washington without giving effect to the principles of conflicts of laws thereof.

The terms of the Agreement, including but not limited to Assignor's representations, warranties, covenants, agreements and indemnities relating to the Patents, are incorporated

herein by this reference. Assignor acknowledges and agrees that the representations, warranties, covenants, agreements and indemnities contained in the Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Agreement and the terms hereof, the terms of the Agreement shall govern.
