## Assignment

**Whereas:** RAVIV, INDUSTRIAL BUILDING RENTALS (formerly RAVIV – PRECISION INJECTION MOLDING) a partnership organized, registered and existing under the laws of the State of Israel, having an address of Kibbutz Revivim, D.N. Halutza 85515 Israel (“Assignor”), is the owner of the patents and patent applications as listed in “Annex A” attached herewith (“The Patents”); and

**Whereas:** Assignor wishes to assign and transfer to Raval – Agriculture Cooperative Societies Ltd. (formerly RAVAL-RAVIV AUTOMATIVE FUEL VAPOR CONTROL SYSTEMS A.C.S. Ltd.), a cooperative society organized, registered and existing under the laws of the State of Israel, having an address of Kibbutz Revivim, D.N. Halutza 85515 Israel (“Assignee”), all of assignor’s rights, title and interest in and to the Patents, together with the inventions described therein; as may be afforded pursuant to the laws of any country throughout the world, including any United States, national and international patent applications, applications claiming priority thereof, provisional patent applications, and Letters Patents of the United States which may be granted thereto, and any divisions, continuations, renewals, substitutes, reissues and extensions, or any other rights that may exist with respect to the Patents in all countries throughout the world for the full term or terms for which the same may be granted, including all claims for damages by reason of infringement of patents issuing from the assigned patents with the right to sue for and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns, nominees or other legal representatives throughout the world; and

**Whereas:** Assignee wishes to acquire full title in and to the Patents, to the extent such rights are not vested in it by law;

Now therefore, on this 19 day of 12, 2002, in consideration of ONE UNITED STATES DOLLAR (US \$1.00) paid in hand, and other good and valuable consideration, the receipt of which is hereby acknowledged, the Assignor does hereby irrevocably and completely sell, assign and transfer to the Assignee, its successors, assigns, nominees or other legal representatives throughout the world, specifically including the United States of America, its territories, dependencies and possessions, all its rights, title and interest in and to the Patents, together with the inventions described therein; as may be afforded pursuant to the laws of any country throughout the world, including any United States., national and international patent applications, applications claiming priority thereof, provisional patent applications, and Letters Patents of the United States which may be granted thereto, and any divisions, continuations, renewals, substitutes, reissues and extensions, or any other rights that may exist with respect to the Patents in all countries throughout the world for the full term or terms for which the same may be granted, including all claims for damages by reason of infringement of patents issuing from the assigned patents with the right to sue for and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns, nominees or other legal representatives throughout the world.

Assignor covenants and agrees that there exist no proprietary or license rights whatsoever of any third party with respect to the Patents hereby sold, assigned and transferred, and that pursuant to the execution of this deed of assignment, Assignor shall have no right whatsoever with respect to the Patents.

Assignor further agrees that he will, at Assignee's request and expense, but without demanding further consideration, perform all lawful acts necessary, including the execution and acknowledgment of instruments, that may be, or may become, necessary for obtaining, maintaining and perfecting Assignee's title to said Patents.
