United States Patent Assignment

This United States Patent Assignment ("Assignment"), made by **Core Dynamics, Inc.**, a Florida Corporation, having a principal place of business at 11222-4 St. Johns Industrial Parkway, Jacksonville, Florida 32246 (hereinafter referred to as "Assignor").

Whereas, Assignor is the owner of the United States Patent Application listed below:

**“SURGICAL SNARE WITH STEERING TETHER
AND METHOD OF USING SAME”
Utility Patent Application No. 10/006,042, filed December 7, 2001**

Whereas, **William G. Dennis**, a citizen of the United States of America, residing in Jacksonville, Florida, with a postal address of c/o 11222-4 St. Johns Industrial Parkway, Jacksonville, Florida 32246 (hereinafter referred to as "Assignee"), is desirous of acquiring the entire right, title and interest of the Assignor in and to the aforesaid Patent Applications.

Recitals.

Whereas, Assignor owns the entire right, title and interest in and to the United States patent application ("Application") and the invention ("Invention") therein disclosed and claimed (collectively, the "Application and Invention"), and has the unrestricted right to sell, assign and transfer such Application and Invention; and

Whereas, Assignee is desirous of acquiring the entire right, title and interest in and to the Application and Invention.

Assignment.

Now, therefore, for one dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold and by these presents does hereby sell, assign, transfer and convey unto Assignee, its successors and assigns Assignor's entire right, title and interest in and to the Application and Invention and in and to any and all applications based thereon, all continuations, continuations-in-part, continuing prosecution applications, or divisions thereof, and in and to any and all letters patent of the United States of America and all countries foreign thereto and reissues and extensions thereof which may be granted therefor or thereon, for the full term for which said letters patent may be granted, together with the right to claim the priority of any patent application included therein, to be held and enjoyed by said Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment and sale had not been made.

Assignor also hereby sells, assigns, transfers and conveys unto Assignee, its successors and assigns the right to sue for any and all infringement of the Patents occurring prior to the date of this Assignment.

Assignor covenants and agrees, on its own behalf and on behalf of its successors and assigns, without further compensation, to promptly at any time upon the request of the Assignee, its successors and assigns, provide such further information and execute such further assignments and documents and do all lawful acts with respect to the Application and Invention that may be necessary or desirable to perfect title thereto in the Assignee, its successors or assigns, and to obtain patents therefor, or in any interference proceedings or for any divisions, continuations or continuation-in-part patent applications relating thereto.

Assignor warrants and represents to Assignee that Assignor has full and unencumbered legal and equitable title to the Application and Invention and that no other person, firm, corporation or entity has been granted any rights by said Assignor in or to the Application and Invention.

Witness the following signature, made as of the date set forth.
