ASSIGNMENT

I, Larry D. Evans, the person identified below as the "Assignor," have made solely a certain new and useful invention (the "Invention"), as set forth in a United States Letters Patent (the "Patent"), bearing substantially the following title and bearing the following patent number. I executed the Patent Application, and it was file on the indicated date:

Title: **AUTOMATED OIL CHANGING SYSTEM**
Patent No.: **6,286,626**
Filed: **August 11, 1999**

For good and valuable consideration, I do hereby sell, assign, and transfer unto David G. Cannon (hereinafter "Assignee"), South Carolina resident, and to his legal representatives, successors, and assigns, my full exclusive right, title, and interest for the territory of the United States of America, its territories and possessions, and for all foreign countries, in and to the Invention as described in the above Patent and in and to any patent application relating directly or indirectly to the Invention, and all Letters Patent, or national equivalents thereof, that may hereafter be granted, and all divisions, renewals, continuations in whole or in part, substitutions, conversions, reissues, prolongations, reexaminations, and extensions thereof; and

The Invention, Patent Applications, and Letters Patent are to be held and enjoyed by Assignee for his own use, and by his successors and assigns, to the end of the term for which Letters Patent may be granted, as fully and entirely as the same would have been held by Assignor had this Assignment and sale not been made, which includes but is not limited to all rights to sue and recover for past infringement and wrongful uses thereof; and authorizes and requests the Commissioner of Patents and Trademarks of the United States and any official of any foreign country whose duty it is to issue patents on applications as described above, to issue all Letters Patent for the Invention to Assignee, his successors and assigns, in accordance with the terms of this Assignment; and Assignor hereby further covenants that Assignor has the full right to convey the interest assigned by this Assignment, Assignor will take all action and execute all documents necessary to perfect the interest assigned hereby, and Assignor has not executed and will not execute any agreement in conflict with this Assignment; and

Assignor does further hereby agree to provide all reasonable aid to Assignee in the making and prosecuting of any application for other Letters Patent that Assignee may wish to make covering the Invention claimed in the Patent Application and in vesting in Assignee like exclusive right, title, and interest in and to all such other applications and resulting Letters Patent in similar proportion. Assignor hereby agrees that Assignor will similarly aid Assignee in the prosecution of any interference that may arise involving any application for Letters Patent herein contemplated and that Assignor will execute and deliver to Assignee any and all additional papers that may be reasonably requested by Assignee to fully carry out the terms of this Assignment. Moreover, Assignor shall render the above-referenced assistance without additional compensation but at no personal expense to him.

Executed this 7 day of Feb., 2003.
