**CONFIRMATION OF ASSIGNMENT OF PATENT RIGHTS**

THIS CONFIRMATION OF ASSIGNMENT OF PATENT RIGHTS ("Assignment") is entered into as of the \_\_\_\_ day of June, 2003, by and between Jonathan Rollin Edwards, who resides at 39 East Patuxent Beach Road, California, Maryland 20619 (Assignor"), and TOWN CREEK INDUSTRIES, INC., A Maryland corporation with its principal place of business at 7375 Benedict Avenue, P.O. Box 314, Benedict, Maryland 20612 ("Assignee").

**Explanation**

Assignor is the inventor of US Patent 5,067,932 known as the "Electric Wheel" technology, which includes all U.S. and international rights in the invention, patent applications and patents described in Exhibit A hereto (collectively, "Issued Patents"). Although Assignor previously assigned his entire right, title and interest in the Patents to Assignee by means of various assignment and other documents, the parties desire to confirm and consolidate such assignments in this Assignment.

**Assignment**

In consideration of One Dollar (\$1.00) or equivalent and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Assignor hereby sells, transfers, assigns, and sets over to the Assignee, and hereby acknowledges that Assignor has sold, transferred, assigned, and set over to the Assignee, and to its successors, assigns, and legal representatives, the entire right, title and interest in and to the invention underlying the Patent, the Patents, and all reissues, reexaminations, divisions, continuations, continuations-in-part, utility models, patents of importation, revalidation patents and inventor certificates to be obtained therefore throughout the world, together with the right to sue and recover for, and the right to profits or damages due or accrued arising out of or in connection with, any and all past, present or future infringement of the Patents. The Assignor agrees to cooperate with the Assignee in sustaining the Patents, and to execute any documents that legally may be required in connection with the filing, prosecution and maintenance of said Patents or any other patent application(s) or inventor certificates(s) in the United States and foreign countries for said Patents, including additional documents that may be required to affirm the rights of Assignee in and to said Patents, all without further consideration. Assignor also agrees, without further consideration but at Assignee's expense, to identify and communicate to Assignee at Assignee's request documents and information concerning the Patents that are within Assignor's possession or control, and to provide further assurances and testimony on behalf of Assignee that lawfully may be required of Assignor in respect of the prosecution, maintenance and defense of any patent application or patent encompassed hereunder. Assignor's obligations hereunder shall extend to Assignor's heirs, executors, administrators and other legal representatives. The Commissioner of Patents is hereby authorized and requested to recognize Assignee as assignee of Assignor's entire right, title and interest therein.

IN WITNESS WHEREOF, the Assignor has executed this Assignment as an instrument under seal on the date written below.
