INTELLECTUAL PROPERTY SECURITY AGREEMENT

This **INTELLECTUAL PROPERTY SECURITY AGREEMENT** ("Agreement"), dated and effective as of April 1, 2002 (the "Effective Date"), is executed by **E. S. ROBBINS CORPORATION**, an Alabama corporation, **CENTAUR HTP NORTHEAST FENCING SYSTEMS, INC.**, an Alabama corporation (collectively, the "Borrowers"), **E. S. ROBBINS, III** and **MARY L. ROBBINS** (E. S. Robbins and Mary L. Robbins, together with the Borrowers, being the "Grantors"), in favor of **UNION PLANTERS BANK, NATIONAL ASSOCIATION**, a national banking association (the "Bank"), with reference to the following facts:

Preliminary Statements

A. The Bank and the Borrowers have entered into a Credit Agreement dated as of April 1, 2002, as amended by the First Amendment to Credit Agreement dated as of even date herewith (as so amended and as it may be further amended, extended, restated or otherwise modified from time to time, the "Credit Agreement").

B. The Credit Agreement provides at Sections 3.01(d) and 3.01(e) that the Bank's obligation to make advances to the Borrowers thereunder is conditioned, inter alia, on execution and delivery by the Obligor of a Trademark and Service Mark Assignment (the "Trademark Assignment") and a Patent Assignment (the "Patent Assignment," and together with the Trademark Assignment, the "Original Assignments") in substantially the forms of Exhibits F and G to the Credit Agreement as originally executed, which Original Assignments were intended to create a collateral security interest in the intellectual property covered thereby. The Original Assignments were executed and delivered to the Bank by the Obligor and were recorded in the United States Patent and Trademark Office on May 23, 2002, and May 1, 2002, respectively.

C. The parties have determined that (i) the form of each of the Original Assignments was incorrect in that each such form contains language suggesting a full assignment of title to, rather than a collateral assignment of, the intellectual property covered thereby, and (b) execution thereof by the Grantors constituted a mistake of law and fact in that the Original Assignments did not accomplish the purpose for which they were intended.

D. Having discovered such mistake, to properly evidence the intention of the parties, the Bank and the Grantors have mutually agreed to void the Original Assignments *ab initio* and to replace the Original Assignments with this Intellectual Property Security Agreement (the "Security Agreement") granting to the Bank a collateral security interest in the intellectual property covered by the Original Assignments, *nunc pro tunc* as of April 1, 2002.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantors hereby agree as follows:

1. Defined Terms. All capitalized terms used but not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

2. Grant of Security Interest. Each Grantor hereby grants to the Bank, *nunc pro tunc* as of the Effective Date, a continuing first priority security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (the "Collateral"):

- (a) all of its patents and patent applications referred to on Schedule I (the "**Patents**") hereto;
- (b) all reissues, continuations, extensions and renewals of the foregoing;
- (c) all goodwill of the business connected with the use of, and symbolized by, each Patent;
- (d) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future (i) infringement or dilution of any Patent or (ii) injury to the goodwill associated with any Patent;
- (e) all of its trademarks, trademark applications and registrations of the trademarks (the "**Trademarks**") referred to on Schedule II attached hereto;
- (f) all trademarks and trademark registrations hereafter adopted or acquired and used which are based upon or derived from the Trademarks or any variations thereof, whether in the United States or any foreign country (the "**Future Trademarks**");
- (g) all extensions, renewals, and continuations of the Trademarks and the Future Trademarks;
- (h) all rights to sue for past, present, and future infringements of the Trademarks and Future Trademarks; and
- (i) all products and proceeds of the foregoing.

3. Obligations of Grantors. Each Grantor agrees that it will perform and discharge and remain liable for all its covenants, duties, and obligations arising in connection with the Collateral and any licenses and agreements related thereto. The Bank shall have no obligation or liability in connection with the Collateral or any licenses or agreements relating thereto by reason of this Agreement or any payment received by the Bank relating to the Collateral, nor shall the Bank be required to perform any covenant, duty, or obligation of the Grantors or any of them arising in connection with the Collateral or any license or agreement or other agreement related thereto, or to take any other action regarding the Collateral or any such licenses or agreements.

4. Representations and Warranties of Grantors. Each Grantor represents and warrants to the Bank that the Grantors are all of the owners of, and have good, indefeasible, and merchantable title to, all of the Collateral; none of the Collateral is subject to any mortgage, pledge, lien, security interest, lease, charge, license, or encumbrance other than a security interest in favor of the Bank; and, upon the filing of this Agreement in the United States Patent and Trademark Office, this Agreement will create a legal and valid first priority perfected and continuing lien on and security interest in the Collateral, enforceable against the Grantors and all third parties, subject to no other mortgage, lien, charge, encumbrance, or security or other interest.

5. Covenants. Each Grantor will maintain the Collateral now under its control, defend the Collateral against the claims of all persons, partnerships, corporations, or other entities, and maintain and renew all registrations of the Collateral in such a way as to protect the value of the Collateral. Without limiting the generality of the foregoing, no Grantor will permit the infringement or abandonment or termination or the expiration prior to the end of the maximum statutory term and any renewals, maintenance and extensions thereof provided by applicable law of any registration of any of the Patents, Trademarks or

Future Trademarks without the prior written consent of the Bank or unless reasonably necessary to carry out the general day-to-day operations as customary in the business of the Grantors.

6. Revocation of Original Assignments. The parties agree that the Original Assignments were entered into for the sole purpose of creating a security interest in the intellectual property covered thereby for the benefit of the Bank; that the parties never intended to a present assignment of such intellectual property to the Bank but rather a security interest, as is created herein; that only because of a mistake as to law and fact did the parties execute the Original Assignments; that the Original Assignments are void ab initio for reasons related to such mistakes and are replaced by this Agreement; and that no right, title or interest in the Collateral was assigned, transferred or otherwise set over unto the Bank pursuant to the Original Assignments other than a collateral security interest therein. By affixing its signature hereto, the Bank hereby concurs in such agreement.

7. Events of Enforcement of Original Assignments. In the event the Original Assignments, or any portions thereof, are determined to be valid or enforceable, for whatever reason, by a Court or otherwise, and the Original Assignments thereby given effect, the Bank hereby sells, assigns, transfers and sets over nunc pro tunc as of the Effective Date back unto each respective Grantor and its successors, assigns and legal representatives all right, title and interest in the Collateral (other than a collateral security interest) otherwise purportedly conveyed to the Bank under the Original Assignments. Further, in such event, the parties agree that the Original Assignments have not been breached by any act or omission of any Grantor including, but not limited to, any alleged breach arising out of the licensing, sublicensing or abandonment of, or failure to maintain, enforce or prosecute an application for, any of the Collateral.

8. Use Prior to Default. Unless and until an Event of Default under and as defined in the Credit Agreement shall occur and be continuing, each Grantor shall retain the legal and equitable title to the Collateral now under its control and shall have the right to use the Collateral in the ordinary course of its business, subject to the terms and covenants of the Credit Agreement and this Agreement.

9. Remedies. Upon the occurrence and during the continuance of any Event of Default under the Credit Agreement, the Bank shall have all the rights and remedies granted in such event by the Credit Agreement, which rights and remedies are specifically incorporated herein by reference and made a part hereof. The Bank in such event may also collect directly any payments due to the Grantors or any of them in respect of the Collateral and may sell, license, lease, assign, or otherwise dispose of the Collateral in the manner set forth in the Credit Agreement with respect to the disposition of the Collateral as defined in the Credit Agreement. Each Grantor agrees that, in the event of any disposition of the Collateral upon any such Event of Default, it will duly execute, acknowledge, and deliver all documents necessary or advisable to record title to the Collateral now under its control in any transferee or transferees thereof, including without limitation valid, recordable assignments of the Patents, Trademarks and Future Trademarks; provided, however, that any transferee of the Trademarks or Future Trademarks shall be an entity which uses the Trademark and Future Trademarks upon goods or in connection with the rendering of services such as the goods on which and the services in connection with which the Trademarks and Future Trademarks are currently used by the respective Grantor. In the event any Grantor fails or refuses to execute and deliver such documents, each Grantor hereby irrevocably appoints the Bank as its attorney-in-fact, with power of substitution, to execute, deliver, and record any such documents on such Grantor's behalf. For the purpose of enabling the Bank to exercise rights and remedies upon any such Event of Default, each Grantor hereby grants to the Bank an irrevocable, non-exclusive license (exercisable without payment of royalty or other compensation to the Grantors) to use, assign, license, or sublicense any of the Collateral, now owned or hereafter acquired by the Grantors, and wherever the same may be located.

10. Remedies Cumulative. The rights and remedies provided herein are cumulative and not exclusive of any other rights or remedies of a secured party provided by law. The rights and remedies provided herein are intended to be in addition to and not in substitution of the rights and remedies provided by the Credit Agreement or any other agreement or instrument delivered in connection therewith.

11. Amendment; Waiver. This Agreement may not be modified, supplemented, or amended, or any of its provisions waived at the request of the Grantors, without the prior written consent of the Bank.

12. No Waiver. No course of dealing between or among any parties to this Agreement or any failure or delay on the part of any such party in exercising any rights or remedies hereunder shall operate as a waiver of any rights or remedies of such party or any other party and no single or partial exercise of any rights or remedies hereunder shall operate as a waiver or preclude the exercise of any other rights or remedies of such party or any other party. No waiver by the Bank of any breach or default by any Grantor shall be deemed a waiver of any other previous breach or default or of any breach or default occurring thereafter.

13. Assignment. The provisions of this Agreement shall be binding upon and inure to the benefit of the respective successors and assigns of the parties hereto; provided, however, that no interest herein or in or to the Collateral may be assigned by a Grantor without the prior written consent of the Bank.

14. Severability. If any clause or provision of this Agreement shall be held invalid or unenforceable, in whole or in part, in any jurisdiction, such invalidity or unenforceability shall attach only to such clause or provision, or part thereof, and shall not in any manner affect any other clause or provision in any jurisdiction.

15. Notices. All notices, requests and demands to or upon Grantors or the Bank under this Agreement shall be given in the manner prescribed by Section 7.02 of the Credit Agreement.

16. Governing Law. All acts and transactions hereunder and the rights and obligations of the parties hereto shall be governed, construed and interpreted in accordance with the domestic laws of the State of Alabama.

IN WITNESS WHEREOF, the parties have entered into this Agreement as of the date first above written.
