**PATENT ASSIGNMENT FROM  
ANTHONY J. O'LENICK TO LAMBENT TECHNOLOGIES CORP.**

This Assignment is made by and between Anthony J. O'Lenick, Jr. of 2170 Luke Edwards Road, Dacula, Georgia 30019 (hereafter "Assignor") and Lambent Technologies Corp., an Illinois corporation having a place of business at c/o Petroferm Inc., 2416 Lynndale Road, Fernandina Beach, Florida 32034, U.S.A. (hereinafter "Assignee").

**WHEREAS**, Assignor is identified as an inventor in each of the U.S. patents (hereafter "subject patents") listed in attached Schedule A;

**WHEREAS**, Assignor was employed at one time by Siltech Inc., which at that time was a corporation of the State of Georgia, U.S.A. and was an affiliated company of Siltech Corporation, a Canadian corporation;

**WHEREAS**, Lambent Technologies Corp. is the successor of Siltech Inc. by virtue of the following transactions: (A) the acquisition of the capital stock in its entirety on May 30, 1997 by Petroferm Inc., a corporation of the State of Delaware; and (B) the change of name of Siltech Inc. to Lambent Technologies Inc., and the

merger thereof into Lambent Technologies Corp., a corporation of the State of Illinois  
(Articles of Merger filed on June 30, 2000);

**WHEREAS**, the Employment Agreement, dated May 30, 1997, between  
Assignor and Petroferm Inc., includes a provision (Paragraph 4.B.) concerning the  
right of Petroferm and its subsidiary Siltech Inc. (now Lambent Technologies Corp.) to  
acquire ownership interests in the subject patents and pursuant to said provision,  
documents were filed in the Patent Office causing the name of Siltech Inc. or Lambent  
Technologies Inc. to appear as "Assignee" on the title pages of patents;

**WHEREAS**, said documents did not include documents of Assignments for the  
subject patents;

**WHEREAS**, Assignee, as Siltech Inc.'s successor is considered to be the  
rightful owner of Assignor's interests in the inventions covered by the subject patents;  
and

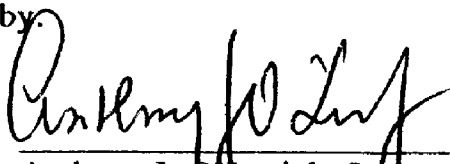

**WHEREAS**, in order to carry out the intent of each of the parties hereto,  
Assignor desires to quit claim and to assign and to confirm the assignment to Assignee  
of all of Assignor's interests transferable now or heretofore in and to the subject  
patents;

NOW, THEREFORE, in consideration of the foregoing premises and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor by these presents does hereby sell, assign, transfer and convey and does hereby confirm the sale, assignment, transfer and conveyance and does hereby quit claim to said Assignee, its successors and assigns, all of his right, title and interest in and to each of the U.S. patents listed in said Schedule A and in and to any reissue, reexamination, and extension of any of said U.S. patents, and in and to inventions described and claimed therein, throughout all countries of the world, whether previously assigned by him or not, the same to be held and enjoyed by Assignee for its own use and for the use of its successors, assigns or other legal representatives, to the end of the term or terms for which the patents are in effect as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made; and Assignor agrees further, at Assignee's expense and upon request of Assignee or Assignee's counsel, to execute such additional documents and to do all things as either may require to give full effect to and perfect the rights of the Assignee and its successors under this Assignment.

This Assignment is considered effective for each of the U.S. patents on Schedule A as of the filing date of the patent application which issued as the patent and in the case of any earlier filing date which is referred to in the patent as of such earlier filing date for any application which is identified as a continuation or a division.

IN WITNESS WHEREOF, Assignor has signed and sealed this Assignment and

declares his intention to be legally bound hereby.
