hereafter referred to as "assignor", have invented certain new and useful improvements in:

Axial Compression Electrical Connector and Method for Interconnection

☐ for which an application for a United States Patent was filed on Date Application Number /

☒ for which an application for a United States Patent was executed on February 20, 2004.

Whereas,

Andrew Corporation
10500 West 153rd Street
Orland Park, IL 60462

hereafter referred to as "assignee" is desirous of acquiring the entire right, title and interest in the same.

Now, therefore, in consideration of good and valuable consideration the receipt whereof is acknowledged, I/We, the assignor(s), by these presents do sell, assign and transfer unto said assignee the full and exclusive right, title and interest in and to any and all improvements which are disclosed in the application and the entire right, title and interest in and to any and all United States Patents which may be granted therefore and any and all extensions, divisions, reissues, substitutes, renewals or continuations thereof, and the right to all benefits under the Patent Cooperation Treaty and the Paris Convention for the Protection of Industrial Property. I/We hereby authorize and request the Commissioner of Patent and Trademarks to issue said United States Patent(s) to said assignee, of the entire right, title, and interest in and to the same, for his sole use and behoof; and for the use and behoof of his legal representatives, to the full end of the term and any applicable statutes of limitations of enforceability for which said Patent may be granted, as fully and entirely as the same would have been held by applicant had this assignment and sale not been made.

Further, it is agreed that, when requested, without charge to but at the expense of said Assignee, the undersigned will execute all divisional, continuing, substitute, renewal, and reissue patent applications; execute all rightful other papers; and generally do everything possible which said Assignee shall consider desirable for aiding in securing and maintaining proper patent protection.
