2. GRANT OF SECURITY INTEREST IN PATENT AND TRADEMARK COLLATERAL. To secure the complete and timely payment, performance and satisfaction of (a) the Obligations and the other covenants, agreements and liabilities of Company under the Indenture and (b) the obligations of Grantors under the Note Documents, and any extensions, renewals or amendments to any of the foregoing, however created, acquired, arising or evidenced, whether arising during or after the initial or any renewal term of the Indenture or after the commencement of any Insolvency Proceeding (including but not limited to those applicable to Grantors located in a foreign jurisdiction) with respect to Company (including, without limitation, the payment of interest and other amounts which would accrue and become due but for the commencement of such Insolvency Proceeding, and whether or not such claim is allowed in such Insolvency Proceeding), whether direct or indirect, absolute or contingent, now or hereafter existing, joint or several, due or not due, primary or secondary, liquidated or unliquidated, or secured or unsecured, and however acquired by Trustee or any Holder, together with all other now existing or hereafter arising Guaranteed Obligations (as that term is defined in the Guaranty), plus attorneys' fees and expenses if the obligations represented by this Patent and Trademark Security Agreement are collected by law, through an attorney-at-law, or under advice therefrom (all of the foregoing now existing or hereafter arising obligations being referred to, collectively, as the "Secured Obligations"), each Grantor hereby grants to Trustee, for the benefit of the Holders, a continuing security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Patent and Trademark Collateral"):

(a) all of its Patents and Patent Licenses to which it is a party, including, without limitation, those referred to on Schedule I hereto;

(b) all of its Trademarks and Trademark Licenses to which it is a party, including, without limitation, those referred to on Schedule II hereto;

(c) all reissues, continuations, continuations-in-part or extensions of the foregoing;

(d) the goodwill of such Grantor's business symbolized by the foregoing and connected therewith; and

(e) all products and proceeds of the foregoing, including, without limitation, license royalties and any claim by such Grantor against third parties for past, present or future (i) infringement of any Patent or Patent licensed under any Patent License, (ii) infringement or dilution of any Trademark or Trademark licensed under any Trademark License or (iii) injury to the goodwill associated with any Patent, Patent licensed under any Patent License, Trademark, or Trademark licensed under any Trademark License.

Notwithstanding the foregoing provisions of this Section 2, the grant of a security interest in the Patent Licenses and the Trademark Licenses shall not include any license agreement in effect as of the date hereof which by its terms prohibits the grant of the security interest contemplated by this Patent and Trademark Security Agreement or the assignment of any Grantor's rights under the Patent Licenses and the Trademark Licenses; provided, however, that upon the termination of such prohibitions for any reason whatsoever, the provisions of this Section 2 shall be deemed to apply thereto automatically; and provided, further, that such Grantor shall fully disclose to Trustee all such prohibitions contained in the Patent Licenses and the Trademark Licenses listed on Schedule I and shall promptly notify Trustee upon the termination of such prohibitions.

3. SECURITY AGREEMENT. The security interests granted pursuant to this Patent and Trademark Security Agreement are granted in conjunction with the security interests granted to Trustee, for the benefit of the Holders, pursuant to the Indenture and the Guarantor Security Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Trustee with respect to the security interest in the Patent and Trademark Collateral made and granted hereby are more fully set forth in the Indenture and the Guarantor Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

4. RESTRICTIONS ON FUTURE AGREEMENTS. No Grantor shall, without Trustee's prior written consent, which consent shall not be unreasonably withheld, enter into any agreement, including, without limitation, any license agreement, which is inconsistent with this Patent and Trademark Security Agreement, and each Grantor further agrees that it will not take any action, and will use its best efforts not to permit any action to be taken by others subject to its control, including, without limitation, licensees, or fail to take any action which would in any material respect adversely affect the validity or enforcement of the rights granted to Trustee under this Patent and Trademark Security Agreement or the rights associated with the Patent and Trademark Collateral. Notwithstanding the foregoing provision, no Grantor shall be restricted in its ability to enter into non-exclusive licenses and similar agreements in the ordinary course of business, consistent with its past practices to the extent permitted by the Indenture and the other Note Documents.

5. NEW PATENT AND TRADEMARK COLLATERAL. Each Grantor restates the representations and warranties made by such Grantor in the Indenture and the Guarantor Security Agreement, as applicable, with respect to the Patent and Trademark Collateral. If, prior to the termination of the Indenture and the Guarantor Security Agreement, and pursuant to the provisions thereof, any Grantor shall (i) obtain rights to or become entitled to the benefit of any patent or patent application or any reissue, division, continuation, renewal,

extension or continuation-in-part of any Patent or any improvement on any Patent, (ii) obtain rights to or become entitled to the benefit of any new trademarks, trade names, registered trademarks, trademark applications, service marks, registered service marks or service mark applications, (iii) obtain rights to or become entitled to the benefit of any new license agreements, whether as licensee or licensor, or license renewals, or (iv) enter into any new license agreement, the provisions of this Patent and Trademark Security Agreement shall automatically apply thereto (to the extent permitted by third party licensors or licensees under agreements in connection with the granting of licenses under such agreements). Each Grantor shall cause each such new Patent or Trademark or application therefor to be registered with the appropriate filing offices, including, without limitation, the PTO, in a manner sufficient to impart constructive notice of such Grantor's ownership thereof. Each Grantor hereby authorizes Trustee to modify this Patent and Trademark Security Agreement unilaterally (x) by amending Schedule I to include any future patents and patent applications that are Patents under this Patent and Trademark Security Agreement, or to include any future license agreements that are Patent Licenses under this Patent and Trademark Security Agreement (to the extent permitted by licensors under agreements in connection with the granting of licenses under such agreements), (y) by amending Schedule II to include any future trademarks, trade names, registered trademarks, trademark applications, service marks, registered service marks and service mark applications that are Trademarks under this Patent and Trademark Security Agreement, or to include any future license agreements that are Trademark Licenses under this Patent and Trademark Security Agreement (to the extent permitted by licensors under agreements in connection with the granting of licenses under such agreements), or (z) by filing, in addition to and not in substitution for this Patent and Trademark Security Agreement, a duplicate original of this Patent and Trademark Security Agreement containing on Schedule I thereto, as the case may be, such future patents, patent applications and future license agreements and containing on Schedule II thereto, as the case may be, such future trademarks, trade names, registered trademarks, trademark applications, service marks, registered service marks, service mark applications and future license agreements.

6. FURTHER ASSIGNMENTS AND SECURITY INTEREST. Each Grantor agrees (a) other than the first priority security interests granted to the Senior Agent pursuant to the Loan Documents (as defined in the Loan Agreement), not to sell or assign any of its interests in, or grant any security interest in or license under, the Patents and the Trademarks in favor of any Person other than Trustee without the prior and express written consent of Trustee and (b) not to sell or assign its interests in the Patent Licenses and Trademark Licenses without the prior and express written consent of Trustee; provided, however, that, to the extent permitted by the Indenture, such Grantor shall be permitted to grant non-exclusive licenses in the ordinary course of business for the use of the Grantor's Patents and Trademarks.

7. DUTIES OF EACH GRANTOR. Each Grantor shall have the duty to take all reasonable and necessary action to preserve and maintain all of such Grantor's rights in the Patent and Trademark Collateral. Each Grantor further agrees to make reasonable commercial efforts (i) not to abandon any Patent and Trademark Collateral that is necessary or economically desirable in the operation of such Grantor's business without the prior written consent of Trustee, and (ii) to use its best efforts to maintain in full force and effect the Patent and Trademark Collateral that is or shall be necessary or economically desirable in the operation of such Grantor's business. Any expenses incurred in connection with the foregoing shall be borne by

the appropriate Grantor. Trustee shall have no duty with respect to the Patent and Trademark Collateral. Without limiting the generality of the foregoing, Trustee shall not be under any obligation to take any steps necessary to preserve rights in the Patent and Trademark Collateral against any other Person, but Trustee may do so at its option from and after the occurrence and during the continuance of an Event of Default, and all expenses incurred in connection therewith (including, without limitation, fees and expenses of attorneys actually incurred and the fees and expenses of other professionals for Trustee) shall be for the sole account of Grantors and shall be added to the Secured Obligations.

8. INDEMNIFICATION BY GRANTORS. Each Grantor hereby agrees to indemnify and hold harmless the Trustee and the Holders for any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements (including, without limitation, attorneys' fees actually incurred) of any kind whatsoever which may be imposed on, incurred by or asserted against Trustee or any Holder in connection with or in any way arising out of or related to any or all of the Patent and Trademark Collateral, unless, with respect to any of the above, such Person to be indemnified is judicially determined to have acted or failed to act with gross negligence or willful misconduct. The indemnification in this Section 8 shall survive the termination of this Patent and Trademark Security Agreement.

9. AGENT'S RIGHT TO SUE. From and after the occurrence and during the continuance of an Event of Default, Trustee shall have the right, but shall not be obligated, to bring suit in its own name to enforce the Patent and Trademark Collateral and, if Trustee shall commence any such suit, the appropriate Grantor shall, at the request of Trustee, do any and all lawful acts and execute any and all proper documents reasonably required by Trustee in aid of such enforcement. The appropriate Grantor shall, upon demand, promptly reimburse Trustee for all costs and expenses incurred by Trustee in the exercise of its rights under this Section 9 (including, without limitation, fees and expenses of attorneys actually incurred and the fees and expenses of other professionals for Trustee).

10. WAIVERS. Trustee's failure, at any time or times hereafter, to require strict performance by any Grantor of any provision of this Patent and Trademark Security Agreement shall not waive, affect or diminish any right of Trustee thereafter to demand strict compliance and performance therewith nor shall any course of dealing between any Grantor and Trustee have such effect. No exercise by Trustee of one right or remedy shall be deemed an election, and no waiver by Trustee of any Event of Default shall be deemed a continuing waiver. No delay by Trustee shall constitute a waiver, election, or acquiescence by it. Trustee shall not, by any act, delay, omission or otherwise, be deemed to have waived any of its rights or remedies hereunder, unless such waiver is in writing signed by Trustee and directed to the Grantor to which such waiver applies, and then only to the extent therein set forth. A waiver by Trustee of any right or remedy on any occasion shall not be construed as a bar to the exercise of any such right or remedy that it would otherwise have had on any other occasion.

11. SEVERABILITY OF PROVISIONS. Each provision of this Patent and Trademark Agreement shall be severable from every other provision of this Patent and Trademark Agreement for the purpose of determining the legal enforceability of any specific provision.

12. MODIFICATION. Neither this Patent and Trademark Security Agreement nor any provision hereof may be altered, amended or modified in any way, except as specifically provided in Section 5 or in a written instrument signed by the parties hereto.

13. POWER OF ATTORNEY; CUMULATIVE REMEDIES.

(a) Each Grantor hereby irrevocably designates, constitutes and appoints Trustee (and all officers and agents of Trustee designated by Trustee in its sole and absolute discretion) as such Grantor's true and lawful attorney-in-fact, and authorizes Trustee and any of Trustee's designees, in such Grantor's or Trustee's name, upon the occurrence and during the continuation of an Event of Default, to take any action and execute any instrument necessary or reasonably advisable to accomplish the purposes of this Patent and Trademark Security Agreement, including, without limitation, to (i) endorse such Grantor's name on all applications, documents, papers and instruments necessary or desirable for Trustee in the use of the Patent and Trademark Collateral, (ii) assign, pledge, convey or otherwise transfer title in or dispose of the Patent and Trademark Collateral to any Person, (iii) grant or issue any exclusive or nonexclusive license under the Patent and Trademark Collateral to any Person, and (iv) take any other actions with respect to the Patent and Trademark Collateral as Trustee deems in its best interest for the payment of the Secured Obligations. Each Grantor hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney is coupled with an interest and shall be irrevocable until this Patent and Trademark Security Agreement is terminated. Each Grantor acknowledges and agrees that this Patent and Trademark Security Agreement is not intended to limit or restrict in any way the rights and remedies of Trustee or any Holder under the Indenture, the Guarantor Security Agreement or any other Note Document, but rather is intended to facilitate the exercise of such rights and remedies.

(b) Trustee shall have, in addition to all other rights and remedies given it by the terms of this Patent and Trademark Security Agreement, all rights and remedies allowed by law and the rights and remedies of a secured party under the Uniform Commercial Code as enacted in any jurisdiction in which the Patent and Trademark Collateral may be located or deemed located. Upon the occurrence and during the continuance of an Event of Default and the election by Trustee to exercise any of its rights and remedies under Section 9-610, Section 9-620 or other provisions of the Uniform Commercial Code as in effect in any jurisdiction, with respect to the Patent and Trademark Collateral, each Grantor agrees to assign, convey and otherwise transfer title in and to the Patent and Trademark Collateral, to Trustee or any transferee of Trustee and to execute and deliver to Trustee or any such transferee all such agreements, documents and instruments as may be necessary, in Trustee's sole discretion, to effect such assignment, conveyance and transfer. All of Trustee's rights and remedies with respect to the Patent and Trademark Collateral, whether established hereby, by the Indenture, the Guarantor Security Agreement or by any other agreements or by law, shall be cumulative and may be exercised separately or concurrently. Notwithstanding anything set forth herein to the contrary, it is hereby expressly agreed that upon the occurrence and during the continuance of an Event of Default, Trustee may exercise any of the rights and remedies provided in this Patent and Trademark Security Agreement, the Indenture or

any of the other Note Documents. To the extent permitted by applicable law, each Grantor agrees that any notification of intended disposition of any of the Patent and Trademark Collateral required by law shall be deemed reasonable and properly given if given at least 10 days before such disposition; provided, however, that Trustee may give any shorter notice that is commercially reasonable under the circumstances. Grantors hereby acknowledge and agree that such notice, when filed, shall constitute a reasonable "authenticated notification of disposition" within the meaning of Section 9-611 of the Uniform Commercial Code as in effect from time to time in any jurisdiction.

14. NEW SUBSIDIARIES. Pursuant to, and subject to the terms of, Section 5.13 of the Indenture, Grantors may form any new Subsidiary or acquire any direct or indirect Subsidiary after the Issue Date so long as at the time of the formation of any such direct or indirect Subsidiary of any Grantor, such new Subsidiary enters into this Patent and Trademark Security Agreement by executing and delivering in favor of Trustee an instrument in the form of Annex 1 attached hereto. Upon the execution and delivery of Annex 1 by such new Subsidiary, such new Subsidiary shall become a Grantor hereunder with the same force and effect as if originally named as a Grantor herein. The execution and delivery of any instrument adding an additional Grantor as a party to this Patent and Trademark Security Agreement shall not require the consent of any Grantor hereunder. The rights and obligations of each Grantor hereunder shall remain in full force and effect notwithstanding the addition of any new Grantor hereunder.

15. SUCCESSORS AND ASSIGNS.

(a) This Patent and Trademark Security Agreement shall bind and inure to the benefit of the respective successors and assigns of each of the parties hereto including, without limitation, any receiver or trustee of a Grantor; provided, however, that no Grantor may assign this Patent and Trademark Security Agreement or any rights or duties hereunder without Trustee's prior written consent and any prohibited assignment shall be absolutely void *ab initio*. No consent to assignment by Trustee shall release any Grantor from its obligations to the Trustee or the Holders.

(b) Trustee and the Holders may, to the extent permitted under the Indenture or any other Note Documents, and pursuant to the notice provisions thereunder, sell, assign or transfer all or any part of the Secured Obligations, and in such event each and every permitted assignee, transferee, or holder of all or any of the Secured Obligations shall have the right to enforce this Patent and Trademark Security Agreement, by suit or otherwise, for the benefit of such permitted assignee, transferee or holder as fully as if such assignee, transferee or holder were herein by name specifically given such rights, powers and benefits. In addition to and without limiting the foregoing, Trustee may assign and transfer, in whole or in part, its rights and obligations hereunder to a successor or separate Trustee appointed in its capacity as trustee and/or collateral agent in accordance with the terms of the Indenture. In the event this Patent and Trademark Security Agreement or the rights hereunder are so assigned by Trustee, the term "Trustee", wherever used herein, shall be deemed to refer to and include any such assignee.

16. GOVERNING LAW. This validity of this Patent and Trademark Security Agreement, the construction, interpretation, and enforcement hereof and the rights of the parties hereto and the beneficiaries hereof with respect to all matters arising hereunder or related hereto shall be determined under, governed by, and construed in accordance with the laws of the State of New York.

17. NOTICES. All notices or other communications hereunder shall be given in the form and manner and to the addresses set forth in the Indenture or the Guarantor Security Agreement, as applicable.

18. SECTION HEADINGS. Headings and numbers have been set forth herein for convenience only. Unless the contrary is compelled by the context, everything contained in each Section applies equally to this entire Patent and Trademark Security Agreement.

19. EXECUTION IN COUNTERPARTS. This Patent and Trademark Security Agreement may be executed in any number of counterparts and by different parties on separate counterparts, each of which, when executed and delivered, shall be deemed to be an original, and all of which, when taken together, shall constitute but one and the same agreement. Delivery of an executed counterpart of this Patent and Trademark Security Agreement by telefacsimile shall be equally as effective as delivery of an original executed counterpart of this Patent and Trademark Security Agreement.

20. SURVIVAL OF PROVISIONS. All representations, warranties and covenants of each Grantor contained herein shall survive the execution and delivery of this Patent and Trademark Security Agreement.

21. INTEGRATION. This Patent and Trademark Security Agreement, together with the other Note Documents, reflects the entire understanding of the parties with respect to the transactions contemplated hereby and shall not be contradicted or qualified by any other agreement, oral or written, before the date hereof.

22. EFFECTIVENESS. This Patent and Trademark Security Agreement shall become effective on the date and year first written above.

23. AGENT. The powers conferred on Trustee hereunder are solely to protect its interest in the Patent and Trademark Collateral and shall not impose any duty upon Trustee to exercise any such powers. Except for the safe custody of any Patent and Trademark Collateral in its actual possession and the accounting for moneys actually received by Trustee pursuant hereto, Trustee shall have no duty with respect to the Patent and Trademark Collateral or as to the taking of any necessary steps to preserve rights against prior parties or any other rights pertaining to any of the Patent and Trademark Collateral. Each reference herein to any right granted to, benefit conferred upon or power exercisable, exercised, or action taken by Trustee shall be deemed to be a reference to, or be deemed to have been so taken, as the case may be, by Trustee in its capacity as Trustee pursuant to the Indenture for the benefit of the Holders, all as more fully set forth in the Indenture.

24. INTERCREDITOR AGREEMENT. Trustee and Senior Agent have executed and delivered the Intercreditor Agreement. As between Trustee and the Holders on the one hand, and Senior Agent and the Lenders (as defined in the Intercreditor Agreement), on the other hand, the rights of Trustee and the Holders hereunder and under the other Note Documents are subject to the terms of the Intercreditor Agreement. The Grantors are not a party to, nor beneficiary of, the Intercreditor Agreement, and nothing in this paragraph nor the Intercreditor Agreement shall impair, limit or otherwise affect the grant of security interest hereby or any other of Note Parties' duties or obligations under the Note Documents.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.]

IN WITNESS WHEREOF, each of the parties hereto has caused this Patent and Trademark Security Agreement to be executed and delivered by its duly authorized officer as of the date first set forth above.
