(e) as of the date hereof, no claim has been made that the use of any of the Patents does or may violate the rights of any third person, and to the best of such Assignor's knowledge, as of the date hereof, there is no infringement by such Assignor of the patent rights of others, except for infringements that, individually and in the aggregate, could not reasonably be expected to result in a Material Adverse Effect;

(f) such Assignor is the sole and exclusive owner (except where Patents are jointly held and such joint ownership is disclosed on Schedule 5.5 to the Credit Agreement) of the entire and unencumbered right, title and interest in and to each of the Patents (other than ownership and other rights reserved by third party owners with respect to Patents which such Assignor is licensed to practice or use, which license is disclosed on Schedule 5.5 to the Credit Agreement), free and clear of any liens, charges, encumbrances and adverse claims (except Permitted Liens), including without limitation pledges, assignments, licenses, shop rights and covenants by such Assignor not to sue third persons, other than the security agreement and mortgage created by the Credit Agreement and this Patent Assignment and Permitted Liens;

4. NO TRANSFER OR INCONSISTENT AGREEMENTS.

Without the Agent's prior written consent, no Assignor will (a) mortgage, pledge, assign, encumber, grant a security interest in, transfer, license or alienate any of the Patent Collateral, or (b) enter into any agreement (including, for example, a license agreement) that is prohibited by this Patent Assignment or the Credit Agreement.

5. AFTER-ACQUIRED PATENTS, ETC.

5.1. After-acquired Patents. If, before the Obligations shall have been finally paid and satisfied in full, any Assignor shall obtain any right, title or interest in or to any other or new patents, patent applications or patentable inventions, or become entitled to the benefit of any patent application or patent or any reissue, division, continuation, renewal, extension, or continuation-in-part of any of the Patent Collateral or any improvement on any of the Patent Collateral, such patents, patent applications or patentable inventions shall automatically be included within the Patent Collateral hereunder and the provisions of this Patent Assignment shall apply thereto. Each Assignor shall give to the Agent such notice and shall execute and deliver to the Agent such documents or instruments as are required to be provided, executed and delivered with respect to patents, patent applications or patentable inventions granted as Collateral under the Credit Agreement (including, without limitation, Section 4.2(l) of the Credit Agreement with respect to the Patent Collateral to the same extent as if Section 4.2(l) were set forth herein and applied to all of the Patent Collateral).

5.2. Amendment to Schedule. Each Assignor authorizes the Agent to modify this Patent Assignment, without the necessity of their further approval or signature, by amending Schedule A hereto to include any future or other Patents or Patent Rights under §2 or §5 hereof but no Assignor makes any representation or

warranty with respect thereto unless such Assignor has contributed to such amendment.

6. PATENT PROSECUTION.

6.1. Assignor Responsible. Each Assignor shall assume full and complete responsibility for the prosecution, grant, enforcement or any other necessary or desirable actions in connection with the Patent Collateral to the same extent with respect to patents, patent applications or patentable inventions by Section 4.2(l) of the Credit Agreement, and shall hold the Agent and the Lenders harmless from any and all reasonable out-of-pocket costs, damages, liabilities and expenses which may be incurred by the Agent or any of the Lenders in connection with the Agent's title to any of the Patent Collateral or any other action or failure to act in connection with this Patent Assignment or the transactions contemplated hereby.

6.2. Assignor's Duties, etc. With respect to the Patent Collateral for which it is the Assignor, each Assignor shall, in the ordinary course of business consistent with its past practices, file and prosecute diligently, all applications for registration of Patent Collateral now or hereafter pending that would be, in such Assignor's reasonable business judgment, necessary to any business of the Assignors to which any such applications pertain, and to do all acts in the ordinary course of business consistent with past practices and in its commercially reasonable business judgment, in any such instance, necessary to preserve and maintain all material rights in such Patent Collateral, including without limitation (a) the payment when due of all maintenance fees and other fees, taxes and other expenses which shall be incurred or which shall accrue with respect to any of the Patent Collateral and (b) institution and maintenance of appropriate suits, proceedings or actions, unless such Patent Collateral is not material to the business of the Assignors, as reasonably determined by the Assignors consistent with historical and prudent and commercially reasonable business practices. Any expenses incurred in connection with such applications and actions shall be borne by such Assignor. Except in accordance with historical and prudent and commercially reasonable business practices, no Assignor shall abandon any filed patent application, or any pending patent application or patent, without the consent of the Agent, which consent shall not be unreasonably withheld. The Agent hereby appoints each Assignor as its agent for all matters referred to in the foregoing provisions of this §6 and agrees to execute any documents necessary to confirm such appointment. Upon the occurrence and during the continuance of an Event of Default, the Agent may terminate such agency by providing written notice of termination to each Assignor.

6.3. Assignor's Enforcement Rights. With respect to the Patent Collateral for which it is the Assignor, each Assignor shall have the right to bring suit or other action in such Assignor's own name to enforce the Patents and the Patent Rights. Each Assignor may require the Agent to join in such suit or action as may be necessary to assure such Assignor's ability to bring and maintain any such suit or action in any proper forum so long as the Agent is completely satisfied that such joinder will not subject the Agent or any of the Lenders to any risk of liability. Each Assignor shall promptly, upon demand, reimburse and indemnify the Agent

and the Lenders for all damages and reasonable out-of-pocket costs and expenses, including legal fees, incurred by the Agent and any of the Lenders pursuant to this §6.

6.4. Notification by Assignor. Promptly upon obtaining knowledge thereof, the Assignors will notify the Agent in writing of the institution of, or any final and materially adverse determination in, any proceeding in the PTO or any similar office or agency of the United States or any foreign country, or any court, regarding the validity of any of the Patents or any Assignor's rights, title or interests in and to any of the Patent Collateral, and of any event which does or reasonably could materially adversely affect the value of any of the Patent Collateral, the ability of any Assignor or the Agent to dispose of any of the Patent Collateral or the rights and remedies of the Agent and the Lenders in relation thereto (including but not limited to the levy of any legal process against any of the Patent Collateral) if, in the case of any of the foregoing, such institution, determination, or event has or could reasonably be expected to have a Material Adverse Effect. Each notice given pursuant to this §6.4 shall be accompanied by a statement of a Designated Financial Officer setting forth the details of the institution, determination, or event requiring such notice and of any action taken or proposed to be taken with respect thereto.

7. LICENSE BACK TO ASSIGNOR.

Unless and until there shall have occurred and be continuing an Event of Default and the Agent has notified any Assignor that the license granted hereunder is terminated, the Agent hereby grants to such Assignor the sole and exclusive, nontransferable, royalty-free, worldwide right and license under the Patents to make, have made for it, use, sell and otherwise practice the inventions disclosed and claimed in the Patents for such Assignor's own benefit and account and for none other; provided, however, that the foregoing right and license shall be no greater in scope than, and limited by, the rights assigned to the Agent, for the benefit of the Lenders and the Agent, by such Assignor hereby. Each Assignor agrees not to sell, assign, transfer, encumber or sublicense its interest in the license granted to such Assignor in this §7, without the prior written consent of the Agent. Any such sublicenses granted on or after the date hereof shall be terminable by the Agent upon termination of any Assignor's license hereunder.

8. REMEDIES.

If any Event of Default shall have occurred and be continuing, then at the discretion of the Agent, or upon instructions by the Required Lenders to the Agent, and upon notice by the Agent to any Assignor: (a) such Assignor's license with respect to the Patents as set forth in §7 shall terminate; (b) such Assignor shall immediately cease and desist from the practice, manufacture, use and sale of the inventions claimed, disclosed or covered by the Patents; and (c) the Agent shall have, in addition to all other rights and remedies given it by this Patent Assignment, the Credit Agreement, and the other Loan Documents, those allowed by law and the rights and remedies of a secured party under the Uniform Commercial Code as enacted in the State of Connecticut and, without limiting the generality of the

foregoing, the Agent may immediately, without demand of performance and without other notice (except as set forth next below) or demand whatsoever to such Assignor, all of which are hereby expressly waived, and without advertisement, sell or license at public or private sale or otherwise realize upon the whole or from time to time any part of the Patent Collateral, or any interest which such Assignor may have therein, and after deducting from the proceeds of sale or other disposition of the Patent Collateral all reasonable expenses (including all reasonable expenses for broker's fees and legal services), shall apply the residue of such proceeds toward the payment of the Obligations as set forth in the Credit Agreement. Notice of any sale, license or other disposition of any of the Patent Collateral shall be given to any Assignor at least ten (10) Business Days before the time that any intended public sale or other disposition of such Patent Collateral is to be made or after which any private sale or other disposition of such Patent Collateral may be made, which each Assignor hereby agrees shall be reasonable notice of such public or private sale or other disposition. At any such sale or other disposition, the Agent may, to the extent permitted under applicable law, purchase or license the whole or any part of the Patent Collateral or interests therein sold, licensed or otherwise disposed of.

Notwithstanding anything contained herein to the contrary, the rights and remedies of the Agent and the Lenders hereunder are subject to any limitations thereon that are set forth in the Intercreditor Agreement.

9. COLLATERAL PROTECTION.

If any Assignor shall fail to do any act that it has covenanted to do hereunder, or if any representation or warranty of such Assignor shall be breached, the Agent, in its own name or that of such Assignor (in the sole discretion of the Agent), may (but shall not be obligated to) do such act or remedy such breach (or cause such act to be done or such breach to be remedied), and such Assignor agrees promptly to reimburse the Agent for any reasonable cost or expense incurred by the Agent in so doing.

10. POWER OF ATTORNEY.

Each Assignor does hereby make, constitute and appoint the Agent (and any officer or agent of the Agent as the Agent may select in its exclusive discretion) as such Assignor's true and lawful attorney-in-fact, with the power (without limitation of the power granted to the Agent by Section 4.2(v) of the Credit Agreement) exercisable only upon the occurrence and during the continuance of an Event of Default, to endorse such Assignor's name on all applications, documents, papers and instruments necessary for the Agent, upon the occurrence and during the continuance of an Event of Default, to use any of the Patent Collateral, to practice, make, use or sell the inventions disclosed or claimed in any of the Patent Collateral, to grant or issue any exclusive or nonexclusive license of any of the Patent Collateral to any third person, or necessary for the Agent to assign, pledge, convey or otherwise transfer title in or dispose of the Patent Collateral or any part thereof or interest therein to any third person, and, in general, to execute and deliver any instruments or documents and do all other acts which such Assignor is obligated to execute and

do hereunder, including, without limitation, the filing and prosecuting of registration and transfer applications with the appropriate federal, state or local agencies or authorities with respect to the Patent Collateral. To the extent permitted by law, each Assignor hereby ratifies all that said attorneys shall lawfully do or cause to be done by virtue hereof. This power of attorney is coupled with an interest and is irrevocable. The powers conferred on the Agent hereunder are solely to protect the interests of the Agent and the Lenders in the Patent Collateral and shall not impose any duty upon the Agent to exercise any such powers. The Agent shall be accountable only for the amounts that it actually receives as a result o the exercise of such powers, and neither it nor any of its officers, directors, employees or agents shall be responsible to any Assignor for any act or failure to act, except for the Agent's own gross negligence or willful misconduct as determined by a final judgment of a court of competent jurisdiction.

11. FURTHER ASSURANCES.

The Assignors shall, at any time and from time to time, and at their expense, make, execute, acknowledge and deliver, and file and record as necessary or appropriate with governmental or regulatory authorities, agencies or offices, such agreements, assignments, documents and instruments, and do such other and further acts and things (including, without limitation, obtaining consents of third parties), as the Agent may reasonably request in order to implement and effect fully the intentions, purposes and provisions of this Patent Assignment, or to assure and confirm to the Agent the grant, perfection and priority of the Agent's security interest in any of the Patent Collateral to the extent contemplated hereby and by Section 4.2 of the Credit Agreement.

12. TERMINATION.

At such time as all of the Obligations have been finally paid and satisfied in full, this Patent Assignment shall terminate and the Agent shall, upon the written request and at the reasonable expense of the Assignors, execute and deliver to the Assignors all deeds, assignments and other instruments as may be necessary or proper to reassign and reconvey to and re-vest in the Assignors the entire right, title and interest to the Patent Collateral previously granted, assigned, transferred and conveyed to the Agent and the Lenders by the Assignors pursuant to this Patent Assignment, as fully as if this Patent Assignment had not been made, subject to any disposition of all or any part thereof which may have been made by the Agent and the Lenders pursuant hereto or the Credit Agreement.

13. COURSE OF DEALING.

No course of dealing among the Assignors, the Lenders and the Agent, nor any failure to exercise, nor any delay in exercising, on the part of the Agent or any of the Lenders, any right, power or privilege hereunder or under the Credit Agreement shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder or thereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

14. EXPENSES.

Any and all reasonable out-of-pocket fees, costs and expenses, of whatever kind or nature, including the reasonable attorneys' fees and legal expenses incurred by the Agent in connection with the preparation of this Patent Assignment and all other documents relating hereto, the consummation of the transactions contemplated hereby or the enforcement hereof, the filing or recording of any documents (including all taxes in connection therewith) in public offices, the payment or discharge of any taxes, counsel fees, maintenance fees, encumbrances or otherwise protecting, maintaining or preserving any of the Patent Collateral, or in defending or prosecuting any actions or proceedings arising out of or related to any of the Patent Collateral, shall be borne and paid by the Assignors.

15. OVERDUE AMOUNTS.

Until paid, all amounts due and payable by any Assignor hereunder shall be a debt secured by the Patent Collateral and other Collateral and shall bear, whether before or after judgment, interest at the Post-Default Rate that is applicable to Base Rate Loans.

16. NO ASSUMPTION OF LIABILITY; INDEMNIFICATION.

NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED HEREIN, NEITHER THE AGENT NOR ANY LENDER ASSUMES ANY LIABILITIES OF ANY ASSIGNOR WITH RESPECT TO ANY CLAIM OR CLAIMS REGARDING SUCH ASSIGNOR'S OWNERSHIP OR PURPORTED OWNERSHIP OF, OR RIGHTS OR PURPORTED RIGHTS ARISING FROM, ANY OF THE PATENT COLLATERAL OR ANY PRACTICE, USE, LICENSE OR SUBLICENSE THEREOF, OR ANY PRACTICE, MANUFACTURE, USE OR SALE OF ANY OF THE INVENTIONS DISCLOSED OR CLAIMED THEREIN, WHETHER ARISING OUT OF ANY PAST, CURRENT OR FUTURE EVENT, CIRCUMSTANCE, ACT OR OMISSION OR OTHERWISE. ALL OF SUCH LIABILITIES SHALL BE EXCLUSIVELY BORNE BY EACH ASSIGNOR, AND SUCH ASSIGNOR SHALL INDEMNIFY THE AGENT AND THE LENDERS FOR ANY AND ALL COSTS, EXPENSES, DAMAGES AND CLAIMS, INCLUDING REASONABLE LEGAL FEES, INCURRED BY THE AGENT OR ANY LENDER WITH RESPECT TO SUCH LIABILITIES.

17. RIGHTS AND REMEDIES CUMULATIVE.

All of the Agent's and the Lenders' rights and remedies with respect to the Patent Collateral, whether established hereby or by the Credit Agreement or by any other agreements or by law, shall be cumulative and may be exercised singularly or concurrently. This Patent Assignment is supplemental to the Credit Agreement, and nothing contained herein shall in any way derogate from any of the rights or remedies of the Agent and the Lenders contained therein. Nothing contained in this Patent Assignment shall be deemed to extend the time of attachment or perfection of

or otherwise impair the security interest in any of the Patent Collateral granted to the Agent for the benefit of the Lenders and the Agent under the Credit Agreement.

All notices and other communications made or required to be given pursuant to this Patent Assignment shall be made or given in the manner set forth in Section 11.1 of the Credit Agreement.

19. AMENDMENT AND WAIVER.

This Patent Assignment is subject to modification only by a writing signed by the Agent (with the consent of the Required Lenders) and the Assignors, except as provided in §5.2. The Agent shall not be deemed to have waived any right hereunder unless such waiver shall be in writing and signed by the Agent and the Required Lenders. A waiver on any one occasion shall not be construed as a bar to or waiver of any right on any future occasion.

20. GOVERNING LAW; CONSENT TO JURISDICTION.

THIS PATENT ASSIGNMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF CONNECTICUT. Each Assignor agrees that any suit for the enforcement of this Patent Assignment may be brought in the courts of the State of Connecticut or any federal court sitting therein and consents to the non-exclusive jurisdiction of such court and to service of process in any such suit being made upon such Assignor by mail at the address specified in §18 or pursuant to Section 11.1 of the Credit Agreement. Each Assignor hereby waives any objection that it may now or hereafter have to the venue of any such suit or any such court or that such suit is brought in an inconvenient court.

21. WAIVER OF JURY TRIAL.

EACH ASSIGNOR AND THE AGENT WAIVE THEIR RIGHT TO A JURY TRIAL WITH RESPECT TO ANY ACTION OR CLAIM ARISING OUT OF ANY DISPUTE IN CONNECTION WITH THIS PATENT ASSIGNMENT, ANY RIGHTS OR OBLIGATIONS HEREUNDER OR THE PERFORMANCE OF ANY SUCH RIGHTS OR OBLIGATIONS. Except as prohibited by law, each Assignor waives any right which it may have to claim or recover in any litigation referred to in the preceding sentence any special, exemplary, punitive or consequential damages or any damages other than, or in addition to, actual damages. Each Assignor (a) certifies that neither the Agent or any Lender nor any representative, agent or attorney of the Agent or any Lender has represented, expressly or otherwise, that the Agent or any Lender would not, in the event of litigation, seek to enforce the foregoing waivers, and (b) acknowledges that, in entering into the Credit Agreement, and the other Loan Documents to which the Agent or any Lender is a party, the Agent and the Lenders are relying upon, among other things, the waivers and certifications contained in this §21. **EACH**

ASSIGNOR CERTIFIES THAT IT MAKES THE FOREGOING WAIVERS AND EACH OF THE WAIVERS SET FORTH IN §22 HEREOF KNOWINGLY, VOLUNTARILY, WITHOUT DURESS AND ONLY AFTER CONSIDERATION OF THE RAMIFICATIONS OF SUCH WAIVERS WITH ITS ATTORNEYS.

22. PREJUDGMENT REMEDY WAIVER.

EACH OF THE ASSIGNORS HEREBY REPRESENTS, WARRANTS AND ACKNOWLEDGES THAT THE TRANSACTION OF WHICH THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS ARE A PART IS A "COMMERCIAL TRANSACTION" WITHIN THE MEANING OF CHAPTER 903A OF CONNECTICUT GENERAL STATUTES, AS AMENDED. EACH OF THE ASSIGNORS HEREBY WAIVES ITS RIGHT TO NOTICE AND PRIOR COURT HEARING OR COURT ORDER UNDER CONNECTICUT GENERAL STATUTES SECTIONS 52-278a ET. SEQ. AS AMENDED OR UNDER ANY OTHER STATE OR FEDERAL LAW WITH RESPECT TO ANY AND ALL PREJUDGMENT REMEDIES THE AGENT MAY EMPLOY TO ENFORCE ITS RIGHTS AND REMEDIES HEREUNDER AND UNDER THE OTHER LOAN DOCUMENTS. MORE SPECIFICALLY, EACH OF THE ASSIGNORS ACKNOWLEDGES THAT THE AGENT'S ATTORNEY MAY, PURSUANT TO CONN. GEN. STAT. §52-278f, ISSUE A WRIT FOR A PREJUDGMENT REMEDY WITHOUT SECURING A COURT ORDER. EACH OF THE ASSIGNORS ACKNOWLEDGES AND RESERVES ITS RIGHT TO NOTICE AND A HEARING SUBSEQUENT TO THE ISSUANCE OF A WRIT FOR PREJUDGMENT REMEDY AS AFORESAID AND THE AGENT ACKNOWLEDGES EACH SUCH ASSIGNOR'S RIGHT TO SAID HEARING SUBSEQUENT TO THE ISSUANCE OF SAID WRIT. EACH OF THE ASSIGNORS FURTHER WAIVES ITS RIGHTS TO REQUEST THAT THE AGENT POST A BOND, WITH OR WITHOUT SURETY, TO PROTECT SUCH ASSIGNOR AGAINST DAMAGES THAT MAY BE CAUSED BY ANY PREJUDGMENT REMEDY SOUGHT OR OBTAINED BY THE AGENT AND WAIVES ANY OBJECTIONS TO ANY PREJUDGMENT REMEDY OBTAINED BY THE AGENT.

23. MISCELLANEOUS.

The headings of each section of this Patent Assignment are for convenience only and shall not define or limit the provisions thereof. This Patent Assignment and all rights and obligations hereunder shall be binding upon the Assignors and their respective successors and assigns, and shall inure to the benefit of the Agent, the Lenders and their respective successors and assigns. In the event of any irreconcilable conflict between the provisions of this Patent Assignment and the Credit Agreement, the provisions of the Credit Agreement shall control. If any term of this Patent Assignment shall be held to be invalid, illegal or unenforceable, the validity of all other terms hereof shall in no way be affected thereby, and this Patent Assignment shall be construed and be enforceable as if such invalid, illegal or unenforceable term had not been included herein. Each Assignor acknowledges receipt of a copy of this Patent Assignment.

IN WITNESS WHEREOF, this Patent Assignment has been executed as of the day and year first above written.
