ASSIGNMENT: PARSE

IN CONSIDERATION OF our obligations under our agreements with BioArray Solutions Ltd. of 35 Technology Drive, Warren New Jersey 07059 (the “Company” or “Assignee”), compensation we received in connection with those agreements, and for other good and valuable consideration, we, being collectively, Michael Seul and Chiu Chau, hereinafter called “Assignors”, having made inventions and commissioned Assignee to file provisional and non-provisional United States patent applications relating to the inventions having the following Serial Numbers, filing dates, and Attorney Docket Numbers:

Serial No.	Filing Date	Docket No.
10/098,604	3/16/2002	US National Phase of PCT US00/25466
09/397,793	9/17/99	Parent (abandoned)

09/768,414	1/24/2001	PARSE Con2
10/365,993	2/13/03	PARSE Con3
		PARSE Con4

and international and foreign patent applications as follows:

WO 01 20593	9/17/2000	PCT
75862/00	9/17/2000	Australia
2384186	9/17/2000	Canada
00 965 084.7	9/17/2000	Europe
2001-524092	9/17/2000	Japan

do hereby assign, sell, grant, and convey to Company, and to its successors and assigns, Assignors’ entire right, title and interest throughout the world in and to:

1. Said inventions relating to “PARSE” and all other inventions in any of the foregoing applications (collectively “Inventions”);
2. U.S. and all other counterpart patent applications relating to said Inventions, including the foregoing applications;
3. All applications for patent or like protection grants on said Inventions that have now been or may in the future be made, whether in the United States of America or in any other country or jurisdiction, including all those listed above and all patents issued therefrom.
4. All continuations, divisions and other patent applications claiming priority to any of the foregoing applications, including those noted in paragraph 3, or any substitutions, renewals, reissues, extensions, and the like of said applications and patents and like protection grants, including without limitation, those obtained or permissible under past, present and future law statutes;

5. All rights of action on account of past, present and future unauthorized use of said Inventions and for infringement of said patents and like protection grants;
6. The right to Assignee to file, as appropriate, in its name or in Assignors' name, applications for patents and like protection grants for said Inventions in any country or jurisdiction; and
7. Assignor covenants that the Assignors, their heirs, legal representatives, assigns, administrators, and executors will, at the expense of Assignee, its successors and assigns, execute all papers and perform such other acts as may be reasonably necessary to give Assignee, its successors and assigns, the full benefit of this Assignment, including assisting in filing, prosecuting, enforcing or defending the above-identified patents and patent applications, including the right to bring an enforcement action or other proceeding in the name of Assignor or join Assignor as a party in any such action.
8. Assignors covenant that to the best of their knowledge and belief, the Inventions are patentable, and all applications relating to the Inventions filed to date (or all patents issued to date, if applicable) include only valid claims, and that the Assignors will use due diligence in reviewing all claims submitted in all such patent applications, both filed and which will be filed, and will seek to ensure that they also include only valid claims. Applicants warrant and represent that they will not, nor will their heirs, legal representatives, assigns, administrators, and executors, assert any position or support any party seeking to interfere with, invalidate, oppose or render unenforceable any of the patents or applications relating to the Inventions, or seeking a narrowed interpretation of the claims of any such patents.
