ARTICLE 2. ROYALTIES AND PAYMENTS

2.1 ROYALTY PAYMENTS. LUMIMOVE shall pay to Murasko a royalty payment equal to the greater of the following dollar amounts:

Exhibit A
LUMIMOVE TECHNOLOGY

LUMIMOVE TECHNOLOGY is defined as the technology platform that eliminates the need for using conventional electroluminescent (PET) film that has been sputtered coated with Indium tin oxide (ITO) as a base surface to provide luminescence via a complete ink system and a screen-printing process, and this definition of LUMIMOVE TECHNOLOGY encompasses all intellectual property rights, associated innovations and know-how, including, but not limited to, everything covered by the Murasko Patent Assignments from Murasko as described below, and everything that is covered by the Assignments of the LUMIMOVE TECHNOLOGY from Murasko described in Section 1.1 of this Agreement, which includes know-how. This ink system functions by using ink layers that provide the function of a front and rear electrode, dielectric, light emitting layer (typically EL phosphor), and a particle conductor (typically, but not limited to, indium tin oxide (ITO)). The base technology is more particularly described in pending Electroluminescent Sign Patent Application No. 08/905,528 and pending applications noted below.

The advantages of eliminating the typical PET film substrate and replacing it with a complete ink system are many including, but not limited to:

- Allowing manufacturing with standard screen-printing equipment.
- Allowing the ability to print on multiple surfaces.
- Ability to cure the complete inks set with conventional heat or ultraviolet light.
- Ability to print layers positive build on non-transparent substrates.
- Ability to print reverse builds on transparent substrates.
- Ability to print traditional graphical inks to complement the functional ink system.
- Ability to vacuum form or emboss the substrates and functional inks.
- Ability to create illumination with organic materials functioning as one or all of the functional layers.

LUMIMOVE TECHNOLOGY may further be described by other pending and issued patent applications listed below or future patent applications made by Lumimove in which Murasko is named as Inventor or Co-inventor.

EXHIBIT B

DISPUTE RESOLUTION

1. Resolution of Disputes and/or Claims among the Parties. The Parties to this Agreement (collectively the "Parties" and individually a "Party") agree to resolve any and all disputes and/or claims between and among them arising out of or in connection with or related to this Agreement, exclusively in the manner set forth in this Exhibit B, except as otherwise set forth in this Agreement. In the event of any such dispute or claim ("Dispute"), the parties involved in the dispute (collectively the "Disputing Parties" and individually a "Disputing Party") will attempt to reach a mutually satisfactory resolution. A Disputing Party will notify all of the other Parties that there is a Dispute, that such Party is invoking the provisions of Section 1 of this Exhibit ("Initial Notice") and will describe the nature of such Dispute and the Parties involved. The Disputing Parties shall negotiate in good faith to resolve, by a written agreement among them, the Dispute in a mutually satisfactory manner within thirty (30) business days after the date of the Initial Notice (for purposes of this Schedule only, the phrase "business day" is defined in Section 3 below), or such longer period of time to which they may agree. If a mutually satisfactory resolution of the Dispute is not achieved in writing during such above mentioned time period, the Disputing Parties shall resolve the Dispute as provided below:

2. Arbitration Provisions and Procedures.

2.1 General Provisions. Subject to the following provisions of this Exhibit, the Parties agree to submit to final and binding arbitration any and all Disputes that have not been resolved pursuant to Section 1 hereof (collectively, "Unresolved Claims"). Except as otherwise provided herein, such arbitration shall be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association ("AAA"). Any Party seeking to invoke arbitration will notify the other Parties in writing (the "Arbitration Notice") stating that such Party is invoking the provisions of Section 2 of this Schedule.

The Parties agree that the dispute resolution process outlined in this Schedule shall be the sole and exclusive mechanism for resolving any Unresolved Claims. All arbitration awards are binding and non-appealable except as otherwise provided in the United States Arbitration Act (9 U.S.C. Section 1 et seq.) Any court with jurisdiction may enter judgment upon the award rendered by the Arbitrator, and the Parties agree to be bound by such award.

2.2 Commencement. The arbitration process starts on the date when any Party issues an Arbitration Notice to the other Parties (the "Commencement Date"). A copy of the Arbitration Notice shall also be sent by such Party to the AAA either in St. Louis, Missouri or as the Parties mutually agree (the "Arbitration City").

2.3 Arbitrator. Arbitration hereunder shall take place before one (1) arbitrator (the "Arbitrator"). Each Party shall designate one (1) Arbitrator, and such two (2) Arbitrators shall mutually agree in writing to the appointment of the Arbitrator who will be charged with the responsibility of being the sole Arbitrator to hear the Dispute and render a final decision regarding the same. If the two Arbitrators are unable or fail to agree upon the appointment of said Arbitrator

within sixty (60) days after the date of the Initial Notice, the AAA shall appoint an Arbitrator to hear the Dispute and render a final decision regarding the same.

2.4 Discovery. Permissible discovery is limited to production of documents or things which would be material to the claims involved in the arbitration hearing and which are in the possession or control of a Disputing Party.

- b. Advising of a reasonable time (within ten (10) business days) and place in which the requested documents or things will be made available for inspection and copying; or

If a Disputing Party whose request has been objected to seeks to compel production, such Disputing Party will file a notice to compel production with the Arbitrator within five (5) business days following receipt of the objection(s). The notice will include a copy of the production request and the response.

The summary will not exceed ten (10) pages. It will concisely identify the issues, describe such Disputing Party's position and the basis for it, explain the relief sought, identify the Disputing Party's representatives at the hearing, and indicate the matters which those representatives will address. Any documents to be used must be submitted at this time. Any documents responsive to the other Disputing Party's summary must be submitted to the Arbitrator and the other Disputing Party(ies) within fifteen (15) business days of receipt of that summary or three (3) business days before the scheduled arbitration hearing, whichever occurs first.

The Arbitrator, in its sole discretion, may have all or part of the proceedings transcribed or recorded.
