## ASSIGNMENT

WHEREAS, I, Arnaud Amy, an individual residing at 5 rue de Cap, 94000 Creteil, France have, in joint effort with another inventor, invented a new and useful apparatus, disclosed in a U.S. Patent Application entitled "**IMPROVED DUCT BLEED LEAK DETECTION SYSTEM**" (hereinafter "the Invention") which was filed on June 4, 2004 and assigned serial number 10/709,913; and

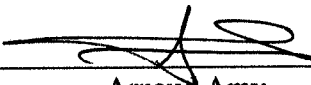

WHEREAS, Senior Operations Inc., a Delaware corporation having a principal place of business at 300 East Devon Avenue, Bartlett, Illinois 60103 (hereinafter "the Assignee"), is desirous of acquiring the entire right, title and interest in and to the Invention;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt and sufficiency of which I hereby acknowledge, I do hereby assign, sell, transfer, and set over unto the Assignee my entire right, title, and interest in and to the Invention for the United States and all foreign countries, and for any applications for United States, foreign, international or regional patents and any patents which may issue which covers the Invention, and all divisions, reissues, continuations, renewals, and/or extensions of any of said applications or patents, the Assignee to have and to hold the interests herein assigned to the full ends of the terms of said patents and any and all divisions, reissues, continuations, renewals, and/or extensions thereof, respectively, as fully and entirely as the same would have been held and enjoyed by me had this Assignment not been made.

The Commissioner of Patents and Trademarks is requested to issue a United States Patent in accordance herewith. I covenant that I am the lawful co-owner of the Invention, that the Invention is unencumbered, that no license has been granted to make, use or vend the Invention and that I have the full right to make this Assignment.

And for the consideration aforesaid, I agree that I will communicate to the Assignee or the representatives thereof any facts known to me respecting the Invention, and will, upon request, but without expense to me, testify in any legal proceedings, sign all lawful papers, execute all original, divisional, reissue, continuation, renewal and/or extension applications, execute all foreign, international or regional applications, make all rightful oaths, and generally do all other and further lawful acts, deemed necessary or expedient by the Assignee or by counsel for the Assignee, to assist or enable the Assignee to obtain and enforce full benefits from the rights and interests herein assigned.

This assignment shall be binding upon my heirs, executors, administrators, and/or assigns, and shall inure to the benefit of the successors, and/or assigns, as the case may be, of the Assignee.

## ASSIGNMENT

WHEREAS, I, Leslie Fernandes, an individual residing at 2235 Fairhurst Drive, La Canada, California 91011-1208 have, in joint effort with another inventor, invented a new and useful apparatus, disclosed in a U.S. Patent Application entitled "**IMPROVED DUCT BLEED LEAK DETECTION SYSTEM**" (hereinafter "the Invention") which was filed on June 4, 2004 and assigned serial number 10/709,913; and

WHEREAS, Senior Operations Inc., a Delaware corporation having a principal place of business at 300 East Devon Avenue, Bartlett, Illinois 60103 (hereinafter "the Assignee"), is desirous of acquiring the entire right, title and interest in and to the Invention;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt and sufficiency of which I hereby acknowledge, I do hereby assign, sell, transfer, and set over unto the Assignee my entire right, title, and interest in and to the Invention for the United States and all foreign countries, and for any applications for United States, foreign, international or regional patents and any patents which may issue which covers the Invention, and all divisions, reissues, continuations, renewals, and/or extensions of any of said applications or patents, the Assignee to have and to hold the interests herein assigned to the full ends of the terms of said patents and any and all divisions, reissues, continuations, renewals, and/or extensions thereof, respectively, as fully and entirely as the same would have been held and enjoyed by me had this Assignment not been made.

The Commissioner of Patents and Trademarks is requested to issue a United States Patent in accordance herewith. I covenant that I am the lawful co-owner of the Invention, that the Invention is unencumbered, that no license has been granted to make, use or vend the Invention and that I have the full right to make this Assignment.

And for the consideration aforesaid, I agree that I will communicate to the Assignee or the representatives thereof any facts known to me respecting the Invention, and will, upon request, but without expense to me, testify in any legal proceedings, sign all lawful papers, execute all original, divisional, reissue, continuation, renewal and/or extension applications, execute all foreign, international or regional applications, make all rightful oaths, and generally do all other and further lawful acts, deemed necessary or expedient by the Assignee or by counsel for the Assignee, to assist or enable the Assignee to obtain and enforce full benefits from the rights and interests herein assigned.

This assignment shall be binding upon my heirs, executors, administrators, and/or assigns, and shall inure to the benefit of the successors, and/or assigns, as the case may be, of the Assignee.
