ASSIGNMENT

WHEREAS, I, an undersigned inventor of residence as listed, have invented certain new and useful improvements as below entitled, for which application for United States Letters Patent has been made, said application having been executed and filed on the dates set forth below;

WHEREAS, RAYTHEON COMPANY, (hereinafter referred to as "Assignee"), a Delaware Corporation, with an address of 870 Winter Street, Waltham, Massachusetts 02451-1449, desires to acquire my entire right, title, and interest in and to the invention and in and to the said application and any Letters Patent that may issue therefrom;

WHEREAS, on July 15, 2003, I executed an assignment to Assignee of all right, title, and interest in and to said invention and in and to said application, all divisions, reissues, continuations, continuations-in-part, and extensions thereof, and all patents which may be granted therefrom;

WHEREAS, that same assignment contained erroneous language purporting, without effect, to assign certain rights from me to a nonexistent "Foreign Assignee"; and

WHEREAS, that same assignment contained erroneous language purporting, without effect, to obligate me to perform certain acts for the benefit of the same nonexistent "Foreign Assignee" and for the benefit of a similarly nonexistent "U.S. Assignee";

NOW, THEREFORE, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I assign to Assignee, all my right, title and interest in and to said invention (both in the United States of America and in all foreign countries) and in and to said application, all divisions, reissues, continuations, continuations-in-part and extensions thereof and all patents which may be granted therefrom; I hereby authorize and request the Commissioner of Patents and Trademarks to issue all patents for said invention, or patents resulting therefrom, insofar as my interest is concerned, to Assignee; and I agree that the above-described purported assignment of certain rights from me to the nonexistent "Foreign Assignee" was wholly without effect.

I will communicate to Assignee any facts known to me respecting any improvements and will testify in any legal proceedings, sign all lawful papers, execute all powers of attorney and all divisional, continuation, continuation-in-part, reissue and substitute applications, make lawful oaths, declarations, and affidavits, execute any other papers in connection therewith necessary to perfect such right, title and interest in Assignee, and generally do everything possible to vest title in Assignee and to aid Assignee to obtain and enforce proper protection for said invention in the United States of America and all foreign countries.
