ASSIGNMENT AND AGREEMENT

For value received and intending to be legally bound, I, the undersigned inventor (Assignor), sell, assign and transfer to THE UNIVERSITY OF DELAWARE (Assignee), having a principal place of business at Newark, Delaware, and its successors, assigns and legal representatives, the entire right, title and interest in and to my invention relating to

METHODS AND COMPOSITIONS FOR INHIBITING CELLULOLYTIC SYMBIONTS

as disclosed and claimed in the PCT application filed on April 9, 2002, assigned Attorney Docket No. 131*261, and all right, title and interest in and to every patent application filed or to be filed on said invention in any country, including the United States, including renewals, revivals, continuations, divisions and any substitute applications of said application, and any and all patents which may issue thereon, and any reissues and extensions of the same.

I authorize and request competent authorities to grant and issue any and all patents on said invention to said assignee or its successors, assigns and legal representatives, or to such nominees as said assignee may designate.

I agree that, when requested, I will, without charge to said assignee but at is expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said invention in any and all countries and for vesting title thereto in said assignee, its successors, assigns, legal representatives or nominees.

I covenant with said assignee, its successors, assigns and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance, and that I have full right to convey the same as herein expressed.
