November 2001 (Davis alleges from 1. August 2001) to 30. August 2002 as Technical Manager responsible for developing the new oil extraction process and apparatus therefor;

Under Article 332 of the Swiss Code of Obligations, inventions made by employees during the course of their employment, within the scope of their duties and related to the activities of the company, are the property of the employer;

I hereby confirm, on the basis of the facts personally known to me, that under Swiss law, all the rights, title and interest in the invention disclosed in International Patent Application N° PCT/IB02/00151 filed on January 17, 2002, claiming priority of European Patent Application N° EP 02000484.2 filed on January 8, 2002, were vested in the employer Cryogenesis S.A. as a matter of law.

All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true; and further, these statements were made with the full knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both.
