**WHEREAS**, I, Fred D.Lang, resident of the city of San Rafael, State of California, have invented a new and useful invention relating to a fossil-fired thermal system such as a power plant or steam generator, and, more particularly, to a method for continuously monitoring the thermal system at a location remote from the system, advising the system operator of corrections, improvements and warnings which improve system operations for which a Letters Patent of the United States has been applied, which application I now own, the said invention being fully described and identified by the specification and drawings in said application;

**WHEREAS**, Exergetic Systems, LLC, a California Limited Liability Corporation, is desirous of acquiring all of the rights, title, and interest to said invention and the said Letters Patent thereon;

**NOW, THEREFORE**, in consideration of Ten Dollars (\$10.00) to me in hand paid, and for other good and valuable consideration, I, the above-named inventor, have sold, assigned, and transferred, and hereby sell, assign, and transfer unto said Exergetic Systems, LLC, my entire right, title, and interest throughout the world in and to said invention; and in and to each and every improvement thereon; and in and to each and every Letters Patent of the United States

and foreign countries that may be granted or has issued on said invention and/or improvements; including each and every Letters Patent granted or issued upon any application which is a division of an application on said invention and/or improvements; and in and to each and every reissue and extension of said Letters Patent, including the subject matter of any and all claims which may be obtained in every such patent;

**THE SAME TO BE HELD AND ENJOYED** by said Exergetic Systems, LLC, its successors, assigns, or other legal representatives, for its own use and benefit, and for the use and benefit of its successors, assigns, or other legal representatives, to the end of the term or terms for which said Letters Patent shall or may be granted, issued, reissued, or extended, as fully and completely as the same might or could have been held and enjoyed by me had this assignment not been made;

**AND I HEREBY** covenant and agree that I will, at any time upon request, execute and deliver any and all instruments that may be necessary or desirable to file or record in respect to said invention and/or improvements and/or Letters Patent to vest the entire right, title, and interest in and to the same in said Exergetic Systems, LLC, its successors, assigns, and other legal representatives, and if said Exergetic Systems, LLC, its successors or assigns, desires to secure Letters Patent of any foreign country on said invention and/or improvements, or to secure a reissue of any Letters Patent thereon, or to file a divisional application thereon, or a disclaimer of supplemental oath relating thereto, or to file a preliminary statement of any interference proceeding involving any application for Letters Patent on said invention and/or improvements thereon or involving Letters Patent granting thereon, I will, upon request, sign all papers, make all rightful oaths, and do all lawful acts requisite for the application for

such patent, reissue or extension, and the procuring thereof, and for the filing of any such divisional application and the procuring of a patent thereon, and for the filing of any such disclaimer, supplemental oath, or preliminary statement, without further compensation, but at the expense of my said assignee, Exergetic Systems, LLC, its successors, assigns, and other legal representatives;
