ASSIGNMENT

WHEREAS, we, Younan Xia and Yugang Sun, of Seattle, Washington, have made inventions described in a United States patent application entitled **METHODS OF NANOSTRUCTURE FORMATION AND SHAPE SELECTION**, filed with the United States Patent and Trademark Office on December 9, 2003, and allotted Application No. 10/732,910; and

WHEREAS, The University of Washington, having a place of business at 1107 N.E. 45th Street, Suite 200, Seattle, Washington 98105, is desirous of acquiring an interest therein:

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, we, Younan Xia and Yugang Sun, hereby sell, assign, and transfer to The University of Washington the full and exclusive right, title, and interest in and to said inventions, said patent application, and any and all patent rights and letters patent for said inventions in the United States and elsewhere throughout the world, including foreign patent priority rights and the right to apply for patents in foreign countries in our names or in the name of The University of Washington, and further including all divisions and continuations of said application and of any foreign patent applications and all reissues and extensions of patent rights and letters patent for said inventions, all to be held and enjoyed by The University of Washington, for its own use and benefit, and by its successors and assigns for their own use and benefit, for the full duration of the terms for which patent rights and letters patent may be granted in this or any foreign country, and covenant that we have full right so to do, and agree that we will communicate to The University of Washington, and its successors and assigns, any facts known to us respecting said inventions, and testify in any legal proceeding, sign all lawful papers, execute all lawful divisional, continuation, and reissue applications, make all rightful declarations or oaths, and do everything lawfully possible to aid The University of Washington, and its successors and assigns, to obtain and enforce proper patent protection for said inventions in this or any foreign country.
