ASSIGNMENT

WHEREAS, Bryan R. Keller, of the City of Springboro and State of Ohio, and Cynthia R. Nelson, of the City of Longmont and State of Colorado, invented certain new and useful SELF-ADJUSTING CHILD HARNESS for which we filed a U.S. Utility Patent Application, Ser. No. 10/684,655 on October 14, 2003 (the "Application");

WHEREAS, Evenflo Company, Inc., a corporation of the State of Ohio, with a place of business at 707 Crossroads Court, Vandalia, Ohio, 45377, hereinafter called the Assignee, is desirous of acquiring the entire right, title and interest in and to said Application and the inventions therein disclosed, and any non-provisional U.S. and/or foreign patent applications claiming the benefit thereof, and any letters patent that may issue thereon;

NOW, THEREFORE, in consideration of valuable consideration, receipt of which is hereby acknowledged, we hereby sell, assign and transfer unto said Assignee, its successors and assigns, the entire right, title and interest in and to said Application, and the inventions therein disclosed, and any improvements thereon, and any patent or patents that may be issued or reissued on such domestic or foreign non-provisional patent applications, and any divisions or continuations of such domestic or foreign non-provisional patent applications, and we hereby authorize and request the Commissioner of Patents and Trademarks to issue any letters patent resulting from such domestic non-provisional patent applications and any continuations, divisions, and/or reissues thereof, to said Assignee, its successors and assigns; and we hereby authorize said Assignee, its successors and assigns, to file in its own name applications for patent in foreign countries in connections with the inventions hereby transferred, under the International Convention claiming priority of said Application or otherwise, and to secure in its own name patent or patents issued thereon; and we hereby agree that, upon request, we will sign all papers, and make all rightful oaths, and do all acts which said Assignee, its successors or assigns, may consider necessary in connection with said Application, and in connection with any other United States or foreign non-provisional applications that may be filed in connection with said inventions, and with any improvements thereon, and in connection with any patents issued or reissued thereon.
