Century 400, Inc. and Certain Assets of
Century Precision Plastics**

September 30, 1998

ASSIGNMENT OF TRADEMARK,
SERVICE MARKS AND THE LIKE

This Assignment is made as of September 30, 1998, by and between William K. Shero Trust d/b/a Century Precision Plastics ("Precision"), a sole proprietorship (the "Seller") and Windsor Industries, Inc., a Colorado corporation (the "Buyer").

WHEREAS, in accord with the Purchase Agreement between and among Precision, the Buyer and others dated September 30, 1998 (the "Purchase Agreement"), the Seller assigns and the Buyer acquires *inter alia* all patents, patent applications, proprietary rights, processes, know-how, trademarks, service marks and other intellectual property of the Seller other than the items listed on Exhibit A hereto.

WHEREAS, in further accord with the Purchase Agreement, the Buyer requested that the Seller provide this Assignment of Seller's patents, patent applications, inventions, trademarks, service marks and related technology to the Buyer.

NOW, THEREFORE, for one dollar (\$1.00) and other valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Seller hereby transfers, sells and assigns to the Buyer, its successors and assigns, and the Buyer hereby assumes, all of the Seller's right, title and interest in the trademarks, service marks, patents and patent applications listed on Exhibit B hereto, any future patents and patent applications based thereon or claiming a right of priority therefrom in which the Seller has any interest, in any country (including, without limitation, any divisional, continuation, continuation-in-part, and/or foreign applications), any patents issuing on any such applications, and any reissue, reexamination or extension of any such patents, any trademarks, or service marks (collectively, "Trademarks, Patents and Patent Applications"); and all inventions, modifications, advances, new and/or useful improvements disclosed and/or claimed in the Patents and Patents Applications (collectively, "Inventions").

The Seller transfers, sells and assigns to the Buyer all of Seller's right, title and interest to the Inventions throughout the world, including the right to file applications and obtain patents, utility models, industrial models and designs for such Inventions in Buyer's own name (or those of its designees) throughout the world, including all rights of priority, all rights to publish cautionary notices reserving ownership of the Inventions, and all rights to register the Inventions in appropriate registries. The Seller authorizes and requests the Commissioner of Patents and Trademarks, or any other official whose duty is to issue patents, to issue such patents for the Inventions, Trademarks, Patents and Patent Applications to the Buyer (or its designees).

DS1 432855.2

The Seller further agrees and confirms its agreement to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers requested by the Buyer to perfect the transfer to Buyer of all right, title and interest in the Trademarks, Patents and Patent Applications, the Inventions and any applications filed thereon or patents issuing therefrom.

The Seller hereby further agrees that it will communicate to the Buyer and its legal representatives any facts known to the Seller respecting the Trademarks, Patents and Patent Applications, the Inventions and any applications filed thereon or patents issuing therefrom and, at the expense of Buyer, to testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, continuation-in-part, reissue and substitute applications, make all lawful oaths, and generally do everything possible to vest title in the Buyer and to aid the Buyer and its legal representatives to obtain and enforce proper protection for said Inventions in all countries.

The Seller hereby covenants that no assignment, license, or other transfer or encumbrance has been, or will be made, that would conflict with this assignment to the Buyer of all right, title and interest in the Trademarks, Patents and Patent Applications, the Inventions and any applications filed thereon or patents issuing therefrom, other than a license granted in Canada to Esteem Manufacturing Ltd. pursuant to that certain Tooling and Equipment Sales and Patents, Trademark and Know-How License Agreement with Esteem Manufacturing, Ltd. dated December 1, 1992.

IN WITNESS WHEREOF, the Seller has caused this Assignment to be duly executed under seal as of the date and year first above written.
