INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this "Agreement") is made and entered into with effect from and as of 11:59PM, EDT, September 30, 2003, by and between Roche Vitamins Inc., a New Jersey corporation (the "Assignor") and DSM Nutritional Products, Inc., a Delaware corporation (the "Assignee"). Capitalized terms used but not defined herein shall have the meanings set forth in the Asset Purchase Agreement (as defined below).

WHEREAS, Assignor and DSM N.V., a Dutch corporation ("DSM") are parties to a Share and Asset Purchase Agreement dated February 10, 2003 among Assignor, DSM, Roche Holding AG, a Swiss corporation ("Roche"), and certain of Roche's affiliates (the "Asset Purchase Agreement"), in connection with which DSM has designated Assignee as the USA Buyer (as defined in the Asset Purchase Agreement);

WHEREAS, pursuant to the Asset Purchase Agreement, the Assignor has agreed to assign to the Assignee, and the Assignee has agreed to acquire, all of the Assignor's right, title and interest (including ownership rights and license rights) in and to the patents, patent applications and unfiled invention disclosures comprised within the USA Assets, together with all reissues, continuations, divisions, confirmations, re-examinations and extensions thereof and all continuations-in-part based in whole or in part thereon, and all license agreements with respect to each of the foregoing entered into by the Assignor (collectively, the "Assigned Patents"), including, without limitation, those Assigned Patents set forth in Schedule A hereto;

WHEREAS, pursuant to the Asset Purchase Agreement, the Assignor has agreed to assign to the Assignee, and the Assignee has agreed to acquire, all of the Assignor's right, title and interest (including ownership rights and license rights) in and to the domain name registrations comprised within the USA Assets and all agreements with respect to such registrations entered into by the Assignor (collectively, the "Assigned Domain Names"), including, without limitation, those Assigned Domain Names set forth in Schedule B hereto;

WHEREAS, pursuant to the Asset Purchase Agreement, the Assignor has agreed to assign to the Assignee, and the Assignee has agreed to acquire, all of the Assignor's right, title and interest (including ownership rights and license rights) in and to the trademarks, logos, service marks and trade dress comprised within the USA Assets and all goodwill associated with the foregoing, and license agreements with respect to each of the foregoing entered into by the Assignor (collectively, the "Assigned Trademarks") including, without limitation, those Assigned Trademarks set forth in Schedule C hereto; and

WHEREAS, pursuant to the Asset Purchase Agreement, the Assignor has agreed to assign to the Assignee, and Assignee has agreed to acquire, all of the Assignor's right, title and interest (including ownership rights and license rights) in and to the registered copyrights comprised within the USA Assets and all license agreements with respect to such copyrights entered into by the Assignor (collectively, the "Assigned Registered Copyrights"), including, without limitation, those Assigned Registered Copyrights set forth in Schedule D hereto, together with all of the Assignor's right, title and interest (including ownership rights and license rights) in and to the unregistered copyrights comprised within the USA Assets and all license

agreements with respect to such copyrights entered into by the Assignor (together with the Assigned Registered Copyrights, the "Assigned Copyrights").

NOW, THEREFORE, in consideration of the above premises and the mutual agreements and covenants made herein and in the Asset Purchase Agreement, the Assignor and the Assignee hereby agree as follows:

1. Trademarks. Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee and its successors and assigns, and Assignee hereby accepts from Assignor, all of Assignor's right, title and interest in, to and under the Assigned Trademarks, including (for all purposes hereof), without limitation, all common law trademarks comprised within the USA Assets and for which no applications or registrations exist, all applications to register any of the Assigned Trademarks, and all registrations that have been or may be granted for any of the Assigned Trademarks, together with all common law rights associated with any of the Assigned Trademarks, and all records and files related to the Assigned Trademarks, together with the right to sue and recover damages for future, present and past infringements of the Assigned Trademarks and the right to file, prosecute and maintain foreign applications under any convention or treaty with respect to trademarks and to fully and entirely stand in the place of the Assignor in all matters related to the Assigned Trademarks. With respect to each intent-to-use U.S. trademark application comprised within the Assigned Trademarks, the parties hereto acknowledge that the portion of the business, which is ongoing and existing, to which such trademark pertains is also being transferred to Assignee pursuant to the Asset Purchase Agreement. This assignment is intended to be and is an absolute assignment and not by way of security.

2. Patents. Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee, and Assignee hereby accepts from Assignor, all of Assignor's right, title and interest in and to the Assigned Patents, together with the inventions described and claimed in such Assigned Patents, all causes of action for future, present and past infringement of any of the Assigned Patents or unfair competition regarding the Assigned Patents and any and all priority rights, convention rights and other benefits accruing or to accrue with respect to the filing of applications for patents or the issuance of patents in respect of the Assigned Patents, to be held and enjoyed by the Assignee, its successors, assigns, nominees or legal representatives, as fully and entirely as the same would have been held and enjoyed by the Assignor had this assignment not been made. This assignment is intended to be and is an absolute assignment and not by way of security. The Assignor hereby authorizes and requests the Commissioner of Patents of the United States of America to issue to the Assignee any and all letters patent for the Assigned Patents that may be issued and granted on or as a result of the applications aforesaid.

3. Domain Names. Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee and Assignee hereby accepts from Assignor, all of Assignor's right, title and interest in, to and under the Assigned Domain Names.

4. Copyrights. Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee and Assignee hereby accepts from Assignor, all of Assignor's right, title and interest in and to the Assigned Copyrights, together with all causes of action arising after the

date hereof for infringement of any of the Copyrights or unfair competition regarding the Assigned Copyrights.

5. Further Assurances. Assignor agrees to perform all further acts and execute and deliver all further documents and/or instruments which may be reasonably necessary to carry out the provisions of this Agreement, including, without limitation, cooperating fully with Assignee to perfect the transfer of the Assigned Patents, Assigned Domain Names, Assigned Copyrights and Assigned Trademarks hereunder and, if appropriate, to assure that the Assigned Patents, Assigned Domain Names, Assigned Copyrights and Assigned Trademarks are properly recorded at any appropriate national or state administrative agency, including but not limited to, the United States Patent and Trademark Office and the United States Copyright Office. While the registrations for the Assigned Domain Names are still under Assignor's control, Assignor agrees to make any changes to such registrations as may be requested by Assignee, including, without limitation, updating the owner, DNS and contact information associated with such registrations.

6. Amendment of Schedules. If the Assignor or Assignee should discover at any time the existence of any Assigned Trademarks, Assigned Domain Names, Assigned Registered Copyrights or Assigned Patents that are not included in the Schedules hereto ("Discovered Assets"), then the Assignor shall cooperate with Assignee in promptly amending such Schedules to include such Discovered Assets.

7. Recordation. Assignor hereby authorizes and requests that the United States Patent and Trademark Office and the United States Copyright Office issue to, and record in the name of, Assignee all right, title, and interest in and to the Assigned Patents, Assigned Registered Copyrights and Assigned Trademarks.

8. Miscellaneous. This Agreement shall be governed by and enforced in accordance with the laws of the State of New York. This Agreement may not be supplemented, altered or modified in any manner except by a writing signed by all parties hereto. The failure of any party to enforce any terms or provisions of this Agreement shall not waive any of its rights under such or other terms or provisions. This Agreement shall bind and inure to the benefit of the respective parties and their assigns, transferees and successors. This Agreement and any amendments hereto may be executed in one or more counterparts, each of which shall be deemed an original but all of which together will constitute on and the same instrument. This Agreement is in accordance with and is subject to all of the terms and conditions set forth in the Asset Purchase Agreement (which Asset Purchase Agreement shall govern in the event of a conflict between any of the terms hereof and those set forth in the Asset Purchase Agreement).

IN WITNESS WHEREOF, the parties hereto have caused their respective duly authorized officers to execute this Agreement as of the date first above written.
