WHEREAS, the Assignors have invented a new and useful invention and design entitled **AUTOMATED PAYMENT STATION**, for which an application for a United States Design Patent will be filed substantially contemporaneously with the filing of this Assignment, and for which an application for a Canadian Industrial Design was filed on May 26, 2004;

WHEREAS, the Assignors believe themselves to be the original, first and joint inventors and authors of the invention and design;

WHEREAS, the Assignee desires to acquire by formal, recordable assignment the entire worldwide right, title and interest in and to said invention and

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignors hereby sell, assign and transfer to the Assignee, the entire worldwide right, title and interest in and to said invention and design, said applications, and any utility patent, design patent, industrial design, design right, utility model or petty patent that may be granted for said invention and design in the United States, Canada, or anywhere else throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, the Assignors agree that, upon request and without further compensation, but at no expense to the Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing any utility patent, design patent, industrial design, design right, utility model or petty patent as may issue anywhere in the world for said invention and design, and for perfecting, recording or maintaining the title of the Assignee, its successors and assigns,
