ASSIGNMENT

This assignment is made effective December 10th 2004, by Michael J. Eber, not individually but as assignee for the benefit of creditors of EMC Document Systems, Inc., an Illinois corporation ("Assignor") and EMC Document Technologies, LLC,
a Michigan Limited Liability Company,
("Assignee").

WHEREAS, Assignor was assigned the U.S. patents and patent applications, European patent applications, and the U.S. trademark registrations and European Community trademark applications, including the goodwill of the business in connection with which the trademarks, applications and registrations are used, listed on the attached Schedule of Intellectual Property, as well as of any other patents, patent applications, copyrights, copyright applications, trademarks, trademark applications, trademark registrations, trade names, trade secrets and other intellectual property associated with the business operations of EMC Document Systems, Inc. (hereinafter collectively referred to as the "Intellectual Property") from Kenneth Stevens, individually.

WHEREAS, Assignee is desirous of obtaining the full and entire right, title and interest for all countries throughout the world, in the Intellectual Property;

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged,

1. Assignor agrees to sell, assign, transfer and set over to Assignee, its assigns and successors in interest, the full and entire right, title and interest for all countries throughout the world, in said Intellectual Property including;

the full right, title and interest in all respective patents, divisions, reissues, reexamination certificates, continuing applications and extensions of all U.S. and foreign patents and patent applications, together with the inventions described in the patents and patent applications listed in the Schedule of Intellectual Property, and together, for the sole use and benefit of Assignee, its assigns, and successors in interest to the full end of the term of the patents listed in the Schedule of Intellectual Property, and for which each patent that may be granted, and further together with all claims and demands, if any, including all claims and demands for past infringements of any patent, or patent application as of its publication date, listed in the Schedule of Intellectual Assignment, as fully and entirely as the same would have been held by Assignor had this Assignment not been made; AND

the full right, title and interest, in the U.S. and world-wide, in and to the trademarks, applications and registrations, and the goodwill of the business symbolized by the trademarks, applications and registrations listed in the Schedule of Intellectual Property and in connection with which the trademarks, applications and registrations are used, and all claims and demands, if any, including all claims and demands for past infringement, that Assignor may have in connection with the trademarks, applications or registrations arising before and as of the date of this Assignment.

2. After the date of this assignment, Assignee, its successors and assigns will take responsibility for any action or proceeding involving prosecuting pending patent and trademark

applications, filing required affidavits for the perpetuation of trademark registrations and any other acts necessary to preserve and maintain rights in the intellectual property identified in the Schedule of Intellectual Property attached hereto. Assignee, its successors and assigns will bear the sole responsibility for the costs incurred in the preservation and maintenance of rights in the intellectual property identified in the Schedule of Intellectual Property attached hereto.

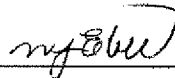

3. Assignee shall be solely responsible for the recording of this Assignment, Assignee shall promptly record this Assignment with the appropriate agencies for the transfer of the Intellectual Property Rights identified in the Schedule of Intellectual Property which shall reflect the transfer as of the date of this assignment. The costs of recording this assignment will be the sole responsibility of the Assignee.

4. The terms and provisions of this Assignment shall inure to the benefit of Assignee and its successors and assigns and shall be binding on Assignor and its legal representatives and any corporate controlling Assignor.

5. Assignor agrees to execute and deliver such other documents as may be reasonably necessary to carry out or otherwise confirm the transaction contemplated by this Assignment upon Assignee's request.

IN WITNESS WHEREOF, Assignor has caused this Assignment to be executed by its duly authorized representative this 10 day of ~~November~~, 2004.
DECEMBER

MICHAEL J. EBER, not individually but as
Assignee for the Benefit of EMC Document
Systems, Inc.

ASSIGNMENT

This assignment is made effective September ____, 2004, by Kenneth Stevens, an individual ("Assignor") residing at 36 West 642 Lancaster Road, St. Charles, Illinois 60175, for the benefit of Michael Eber, not individually but as assignee for the benefit of creditors of EMC Document Systems, Inc., an Illinois corporation ("Assignee");

WHEREAS, Assignor claims to be the sole and exclusive owner of the U.S. patents and patent applications, European patent applications, and the U.S. trademark registrations and European Community trademark applications, including the goodwill of the business in connection with which the trademarks, applications and registrations are used, listed on the attached Schedule of Intellectual Property, as well as of any other patents, patent applications, copyrights, copyright applications, trademarks, trademark applications, trademark registrations, trade names, trade secrets, and other intellectual property associated with the business operations of EMC Document Systems, Inc. (hereinafter collectively referred to as the "Intellectual Property");

WHEREAS, Assignee is desirous of obtaining the full and entire right, title, and interest for all countries throughout the world, in the Intellectual Property;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged,

1. Assignor agrees to sell, assign, transfer, and set over to Assignee, its assigns and successors in interest, the full and entire right, title, and interest, for all countries throughout the world, in said Intellectual Property, including:

the full right, title and interest all respective patents, divisions, reissues, reexamination certificates, continuing applications, and extensions of all U.S. and foreign patents and patent applications, together with the inventions described in the patents and patent applications listed in the Schedule of Intellectual Property, and together, for the sole use and benefit of Assignee, its assigns, and successors in interest, to the full end of the term of the patents listed in the Schedule of Intellectual Property, and for which each patent that may be granted, and further together with all claims and demands, if any, including all claims and demands for past infringement of any patent, or patent application as of its publication date, listed in the Schedule of Intellectual Property, and of each patent that may be granted, arising before and as of the date of this Assignment, as fully and entirely as the same would have been held by Assignor had this Assignment not been made; AND

the full right, title, and interest, in the U.S. and world-wide, in and to the trademarks, applications and registrations, and the goodwill of the business symbolized by the trademarks, applications and registrations and in connection with which the trademarks, applications and registrations are used, and all claims and demands, if any, including all claims and demands for past infringement, that Assignor may have in connection with the trademarks, applications or registrations arising before and as of the date of this Assignment.

2. After the date of this assignment, Assignee, its successors and assigns will take responsibility for any action or proceeding involving prosecuting pending patent and trademark applications, filing required affidavits for the perpetuation of trademark registrations and any other acts necessary to preserve and maintain rights in the intellectual property identified in the Schedule of Intellectual Property attached hereto. Assignee, its successor and assigns will bear

QBCH1386207.2

the sole responsibility for the costs of incurred in the preservation and maintenance of rights in the intellectual property identified in the Schedule of Intellectual Property attached hereto.

3. Assignee shall be solely responsible for the recording of this Assignment. Assignee shall promptly record this Assignment with the appropriate agencies for the transfer of the Intellectual Property Rights identified in the Schedule of Intellectual Property which shall reflect the transfer as of the date of this assignment. The costs of recording this assignment will be the sole responsibility of the Assignee.

4. Except with respect to Patent No. D368,727, and Trademarks Reg. Nos. 1,875,053; 2,214,954; 2,299,766; 2,408,708; and 2,623,033, with respect to the intellectual property identified in the Schedule of Intellectual Property attached hereto, Assignor will bear the sole responsibility for defending any infringement actions in which the first act of infringement arose prior to the date of this Assignment. Assignee, its successors and assigns, will bear sole responsibility for defending any infringement actions in which the first act of infringement arose on the date of this Assignment and subsequent thereto.

5. The terms and provisions of this Assignment shall inure to the benefit of Assignee and its successors and assigns, and shall be binding on Assignor and its legal representatives and any corporation controlling Assignor.

6. Assignor agrees to execute and deliver such other documents as may be reasonably necessary to carry out or otherwise confirm the transaction contemplated by this Assignment upon Assignee's request.

IN WITNESS WHEREOF, Assignor has caused this Assignment to be executed by its duly authorized representative this ____ day of September, 2004.

Kenneth Stevens
