PATENT ASSIGNMENT

WHEREAS, Superior Essex Communications LLC, a Delaware limited liability company ("ASSIGNEE"), and having a usual place of business at 150 Interstate North Parkway, Atlanta, Georgia, Belden Communications Company, a Delaware corporation, and Belden (Canada) Inc., a Canadian Corporation (Belden Communications Company and Belden (Canada) Inc., together "SELLER"), entered into a certain Asset Purchase Agreement, dated as of March 18, 2004 (as amended, the "Purchase Agreement");

WHEREAS, the Purchase Agreement provides for the transfer from SELLER to ASSIGNEE of certain patents included in the Conveyed Intellectual Property (as defined in the Purchase Agreement), such patents being identified in Attachment A hereto (the "Patents");

NOW, THEREFORE, in accordance with the Purchase Agreement, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, SELLER has sold, assigned and transferred and by these presents does hereby sell, assign and transfer unto said ASSIGNEE, its successors and assigns, SELLER's entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the inventions described in said Patents, together with its entire right, title and interest in and to the Patents and any continuations, continuations in-part, divisionals, reissues, reexaminations, renewals, extensions, and substitutions of such Patents, including the right to sue and collect for past infringement, said inventions and Patents to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors and assigns, to the full end of the term for which said Patents may be granted as fully and entirely as the same would have been held by SELLER had this assignment and sale not been made. SELLER hereby acknowledges that this assignment, being of its entire right, title and interest in and to said inventions, carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all patents by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all patents to ASSIGNEE in its own name as assignee of SELLER's entire right, title and interest therein;

AND, SELLER hereby authorizes and requests the Director of the United States Patent and Trademark Office to issue such patents as shall be granted upon any applications based on any of said inventions, to said ASSIGNEE, its successors and assigns.
