INSTRUCTIONS FOR JOINT INVENTOR ASSIGNMENT

- A. This assignment form is to be used when the patent application has more than one inventor. The inventors need not execute the assignment at the same time.
- B. The assignment must be signed in the presence of a notary public, who will put his or her seal in the space provided. Each signature must be notarized by a notary public who witnesses the signature. If one or more inventors execute the assignment separately, notarization of their signatures may be done by the same or a different notary.
- C. The following instructions are applicable to the blank spaces identified by the numbers on the assignment form:
- (1). These spaces will normally be blank at the time of execution. They will be filled in by the Patent Department after the patent application has been filed and an application number has been obtained.
 - (2). Enter the title (name) of the patent application.
 - (3). Type the full name of each inventor under the respective signature lines. Each inventor is to sign exactly as the name has been typed, and enter the date that he or she signs.
 - (4). These blanks are to be completed by the notaries. The name of each inventor that appeared before the notary is to be entered in the space provided.
- D. If there are not enough signature spaces on this sheet for each of the named inventors, additional signature sheets are available from the Patent Department. When used attach or staple the additional signature sheets to this document.
- E. Other assignment forms are available from the patent Department for use by sole inventors.
