CORRECTED ASSIGNMENT

This Corrected Assignment is made on 10 NOVEMBER, 2003, by Charles G. Hutter, III, of Carson City, Nevada, Assignor, to Physical Systems, Inc., a Colorado corporation, Assignee, having a place of business at 2151 Lockheed Way, Carson City, Nevada 89706.

WHEREAS, Assignor has invented a new and useful SELF FIXTURING ADHESIVE ATTACHMENT, for which an application for United States Letters Patent has been filed at the U.S. Patent and Trademark Office as U.S. Serial No. 10/219,707, filed August 14, 2002; and

WHEREAS, Assignor believes himself to be the original, first and sole inventor of the invention disclosed and claimed in said application for Letters Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title and interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world; and

WHEREAS, Assignor previously executed a document entitled "Assignment", for the purpose of transferring Assignor's entire right, title and interest to the Assignee, said "Assignment" having been recorded at the U.S. Patent and Trademark Office on August 14, 2002 at Reel/Frame 013212/0292, but wherein said "Assignment" incorrectly identified Assignee as a Nevada corporation, and not as a Colorado corporation.

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, the

entire right, title, and interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said application or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date first above written.
