Attorney Docket No. T3492-1

ASSIGNMENT

WHEREAS, I, Gottfried LEMPERLE have invented one or more improvements in:

ALLOPLASTIC IMPLANT

described in U.S. Letters Patent 5,344,452;

WHEREAS, ARTES MEDICAL USA, Inc. (hereinafter "ASSIGNEE"), a corporation organized and existing under the laws of the Delaware, and having a usual place of business at La Jolla Center 1, 4660 La Jolla Village Drive, Suite 825, San Diego, CA, 92122, desires to acquire an interest therein, in accordance with agreements duly entered into with us;

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt of which is hereby acknowledged, I have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, my entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, including Canada, in and to the inventions described in said Patent, together with my entire right, title and interest in and to said Patent or claim priority under international convention, including but not limited to continuations, divisionals, reissues, and reexaminations of said Patent; said inventions, applications and Letters Patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term of said Letters Patent as fully and entirely as the same would have been held by me had this assignment and sale not been made; I hereby convey all of my rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for Letters Patent. I hereby acknowledge that this assignment, being of my entire right, title and interest in and to said inventions, carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all Letters Patent by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all Letters Patent to ASSIGNEE for its own name as assignee of our entire right, title and interest therein.

AND, I hereby further agree for my executors and administrators to execute upon request any other lawful documents and likewise to perform any

other lawful acts which may be deemed necessary to secure fully the aforesaid invention to said ASSIGNEE, its successors, assigns, and legal representatives, but at its or their expense and charges, including: the execution of applications for patents in foreign countries; the execution of substitution, reissue, divisional or continuation applications; and preliminary or other statements or the giving of testimony in any interference or other proceeding in which said inventions or any application or patent directed thereto may be involved; and I further hereby authorize ASSIGNEE or its attorneys or agents to insert the correct serial number and filing date into this assignment, if none is indicated on that date of our execution of this assignment;

AND, I do hereby authorize and request the Commissioner of Patents of the United States to issue such Letters Patent as shall be granted upon said application or applications based thereon to said ASSIGNEE, its successors, assigns, and legal representatives.

IN TESTIMONY WHEREOF, I have hereunto set our hands and affixed our seal the date set forth below.

Inventor: Gottfried Lemperle, M.D. 01-18-05
