ASSIGNMENT OF INVENTION AND PATENT RIGHTS

Inventors: David S. Melton and Odes Armijo-Caster

Serial No.: 10/ 796,310

Filing Date: March 8, 2004

For valuable consideration received or to be received, and hereby acknowledged, David S. Melton, 7301 Rosewood Court NW, Albuquerque, New Mexico 87120, and Odes Armijo-Caster, 281 Valley High Street SW, Albuquerque, New Mexico 87105, (hereinafter referred to as "Inventors"), hereby sell, assign and transfer unto Sacred Power Corporation, 2401 12th Street NW, Suites 204-205, Albuquerque, New Mexico 87104, its successors and assigns (hereinafter referred to as "Assignee"), the entire interest for the United States of America and all foreign countries, including all rights of priority under the international conventions and treaties, in and to a certain invention or improvement known as *Tracking Solar Shelter*, and described in a patent application filed in the United States Patent and Trademark Office on March 8, 2004, as Attorney Docket No. 31592-UT-1001, and given U.S. Patent Application Serial No. 10/ 796,310 and in all Letters Patent of the United States and all foreign countries which may or shall be granted on said invention, or any parts thereof, or on said application, or on any provisional, utility, divisional, continuing, continuation-in-part, reissue, reexamination or other applications based in whole or in part thereon. And Inventors agree hereafter to execute all applications, amended specifications, deeds or other instruments, and to do all acts necessary or proper in Assignee's sole discretion to secure to Assignee the grant of Letters Patent in the United States and/or in other countries as Assignee may determine in its sole discretion, with specifications and claims in such form as shall be approved by Assignee's counsel, and to vest and confirm in Assignee the legal and equitable title and full use and benefit of all such patents.

Inventors further agree with Assignee that this Assignment covers all processes, specifications, procedures, techniques and other knowledge and information now or hereafter known to Inventors which are not in the public domain and which relate to the above-mentioned invention or improvement, its manufacture, uses or embodiments, or other matters (the "Related Know-How"). Inventors agree to disclose or provide all Related Know-How to Assignee when discovered or upon request.

Inventors further covenant that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to said application, said invention and said Letters Patent and legal equivalents in foreign countries as may be known and accessible to Inventors and will testify as to the same in any interference or litigation related thereto and will promptly execute and deliver to Assignee or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said invention and said Letters Patent and said equivalents thereof in any foreign country which may be necessary or desirable to carry out the purposes thereof.

Inventors' rights in the above-mentioned invention or improvement and Related Know-How and any patent application(s) and Letters Patent thereon have not been previously assigned, mortgaged or otherwise encumbered, and Inventors have full right, power and authority to assign all such rights to Assignee hereunder.
