PATENT ASSIGNMENT (United States)

The undersigned, **CUSTOM PIPE HANDLERS INC.**, whose full post office address is 6161 67 Avenue, Red Deer, Alberta, T4P 1K3, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, does hereby assign to **PIPE WRANGLERS CANADA (2004) INC.**, having its principal place of business at 6167 67 Avenue, Red Deer, Alberta, T4P 1K3, its successors, assigns and legal representatives, the entire right, title and interest in, to and under:

1. any and all inventions and discoveries disclosed in the United States Letters Patent and applications for United States Letters Patent set out in Schedule A;
2. any and all applications for Letters Patent of that or any other country which have been or may be filed based either in whole or in part upon any or all of said inventions or discoveries, including all rights of priority in foreign countries under international conventions and treaties and the right to file and prosecute such applications; and
3. any and all Letters Patent which have been or may be granted by that or any other country based either in whole or in part upon any or all of said inventions or discoveries

TO HAVE AND TO HOLD the same with all the rights and privileges enjoyed by the undersigned or which would have been enjoyed by the undersigned had the undersigned not made this assignment. And the undersigned hereby authorizes and requests the Commissioner for Patents, or other proper office, to issue any and all such Letters Patent to the assignee herein named. And the undersigned hereby covenants, for ourselves and our legal representatives and assigns, that we neither have executed nor will execute any instrument or perform any act in conflict herewith, and that we, and our heirs, legal representatives, and assigns will at all times do such acts and execute such papers, without expense to ourselves, as from time to time may be necessary or useful to apply for, secure, defend, maintain, reissue, or extend any or all of said Letters Patent, to secure for said assignee the full benefits of said inventions or discoveries, or otherwise to carry into full force and effect the text and intent of this assignment.
