- (1) WHEREAS we, **Natalie Elizabeth Beesley** of Wellingborough, Northamptonshire, **Barry Sinclair Brewster** of Royston, Hertfordshire, **Susan Catrin Day** of Huntingdon, Cambridgeshire, and **Adrian Leslie Walker** of St. Neots, Cambridgeshire are currently, or were formerly, employed by **Unipath Ltd** (hereinafter called "the Company" which expression where the context so admits shall include its successors and assigns) as Research Scientists for Unipath Limited, of Priory Business Park, Bedford, MK44 3UP, United Kingdom and claim to be the/an inventor of one or more inventions concerning **Assay Device** and described in **PCT Patent Application Serial Number PCT/EP03/00274**, filed **January 9, 2003**, (hereinafter called "the Invention"), which claims priority to **EP Patent Application Serial Number 02250119.1**, filed **January 9, 2002**,
- (2) We HEREBY ACKNOWLEDGE that (i) the Invention was made in the course of our normal duties as an employee of the Company or in the course of duties falling outside our normal duties, but specifically assigned to us, and the circumstances were such that an invention might reasonably be expected to result from the carrying out of our duties; or that the Invention was made in the course of our duties and, at the time of making the invention, because of the nature of our duties and the particular responsibilities arising from the nature of our duties we had a special obligation to further the interests of the Company's undertaking, and (ii) by virtue of the circumstances set out above, the Invention belongs, as between ourselves and the Company, to the Company absolutely and the Company is exclusively entitled to any rights in the invention we may have as inventors, and is exclusively entitled to apply for and secure the grant in or outside the United Kingdom of patent or other protection for the invention, including the right to claim priority for applications for such patent or other protection.
- (3) We recognise that notwithstanding the above, the laws of countries other than the United Kingdom may require that before a patent or other industrial property protection can issue in the name of the Company or its assignee, a formal assignment must be executed by us to the Company, or its nominee, and accordingly WE HEREBY AGREE (so as to bind our executors and administrators) with the Company that we will sign, execute and do all such documents acts and things as may be necessary to enable the Company, or its nominee, to seek patent, or other industrial property protection, in any or all foreign countries of the world in respect of the Invention.
