ASSIGNMENT AND AGREEMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, I, PETER S. TAYLOR of Solvang, CA, have sold, assigned, and transferred, and do hereby sell, assign, and transfer unto BTS TECHNOLOGY, INC. (BTS), a Corporation of the State of Delaware, having its principal office in Goleta, California, United States of America, and its successors, assigns, and legal representatives, the entire right, title, and interest in and to certain invention(s) entitled SYSTEM AND METHOD OF RFID DATA TRACKING, which is described, illustrated, and claimed in United States Application No. 11/000,808, filed November 30, 2004, together with the entire right, title and interest in and to the application, and in and to any continuation, continuation-in-part, division, reissue, reexamination, extension, renewal, or substitute thereof, and in and to any patent which may grant upon such application(s).

I hereby sell, assign, and transfer unto BTS, the entire right, title, and interest in and to application(s) for patent filed in all countries foreign to the United States, and in and to application(s) for patent filed under any and all international conventions and treaties, and in and to any patent issuing therefrom, which describe, illustrate, and claim the above-identified invention(s). I hereby also sell, assign, and transfer unto BTS, the entire right, title, and interest in and to all rights under any and all international conventions and treaties in respect of the above-identified invention(s). I authorize BTS to apply for patent in foreign countries directly in its own name, and to claim the priority of the filing date under the provisions of any and all domestic laws and international conventions and treaties.

I authorize and request the equivalent authorities in countries foreign to the United States to issue the patents of their respective countries to and in the name of BTS in the same manner.

I agree that, when requested, I will, without charge to BTS, but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable, or convenient for securing and maintaining patents for the invention(s) in any and all countries and for vesting title thereto in BTS, its successors, assigns, and legal representatives or nominees.

I covenant with BTS, its successors, assigns, and legal representatives, that the interest and property hereby conveyed is free from all prior assignment, grant, mortgage, license, or other encumbrance.
